Marshal White, of Chipley, Ga., Kills Dr. John Hardy in Fight.

MAYOR'S ARM SHATTERED BY COMBATANT'S BALL

Dr. Hardy Horsewhipped an Old White Man and When Before the Mayor Drew His Gun and Started Fatal Difficulty.

Columbus, Ga., June 8.—(Special).—Dr. John C. Hardy, aged about thirty-five years, a well known physician of Chipley, Ga., was shot to death there at noon today in the store of S. A. Goodman, mayor of the town, by Olin White, the marshal of Chipley.

Early this morning Dr. Hardy publicly horsewhipped in front of the livery stable at Chipley an old white man who had offended him. A case was made against him. At noon Dr. Hardy walked in Goodman's store, pulled out his pistol and asked the mayor how much he was going to fine him.

In the conversation he called the mayor a liar. Marshal White was in the store, and when he started to interfere Hardy began shooting. Both he and the marshal fired three shots. When the smoke cleared Dr. Hardy was dead, having been shot through the body and through the head, his brains spattering the floor.

Mayor Goodman had been shot through the left arm and the bone shattered near the wrist, and Marshal White was injured, although two bullets had gone through his clothing. Dr. Hardy leaves a wife and two or three children.

BOAT AND CREW IN THE DEPTHS

British Submarine Craft Is Lost Off Plymouth.

Plymouth, England, June 8.—Submarine boat "A-8" was lost off the breakwater here this morning. Three explosions are said to have occurred on board before she foundered. She had on board eighteen officers and men, including her regular crew and men who were in training. Fourteen of the number were drowned. The others were picked up.

The disaster occurred while the "A-8" was proceeding to sea for practice accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the "A-8," which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

The submarine boat lies in 18 fathoms of water. The first intimation of the disaster came from the boat herself signaling that she was submerged and could not come to the surface. A signal received shortly before noon said:

"All right up to the present time." Having parties immediately proceeded to the scene. Those who were saved were standing in the vicinity of the conning tower at the time of the disaster and were picked up by a passing trawler. They were Lieutenant Candy, commander of the boat; Sub-Lieutenant Murdoch, a petty officer, and a seaman.

The lost boat was about 300 tons displacement, and was launched in 1904. One of the survivors who was interviewed said he was unable to explain the cause of the accident to the "A-8." He added that she suddenly dipped while her hatchways were open and that the boat immediately filled and sank. The man added:

"This is the third submarine boat disaster within a little more than a year, the others being the 'A-1' run down by a liner in the Solent, by which eleven officers and men were entombed in the bottom of the sea, and 'A-5,' which sank off Queenstown after an explosion by which six of her crew were killed.

A heavy explosion occurred over the position where the submarine boat sank and there is no hope of saving any of the men who were carried down with her. The explosions first reported are believed to have been caused by the escape of gasolin similar to the case of the "A-5."

HER PURPLE COSTUME MADE BOYS RIOTOUS

CHICAGO, June 8.—Under the stimulus of the purple costume worn by a woman bare-back rider and on the supposition that it was worn in honor of the university colors, more than 150 Northwestern students last night took possession of a circus in Evanston. After stopping the performance and giving a show of their own, the college students fought with the tent men and were dispersed by the police. Several persons were injured, but no arrests were made.

PEACE IS DESIRABLE,

ROOSEVELT IS TOLD BY CZAR NICHOLAS

Russian Ruler Has Indicated

Willingness to Consider Question of Ending War.

ROOSEVELT IS WAITING

TO HEAR FROM JAPAN

Until Something Comes from the Mikado the Negotiations Will Not Make Much Progress. President Confers With Many Diplomats.

Washington, June 8.—The czar has at last been heard from and the result is not unfavorable to peace. In his recent audience with Mr. Meyer, the American ambassador, the czar indicated a willingness to take under advisement the subject of peace and expressed warm appreciation of the friendly words of Mr. Meyer, speaking as the personal envoy of the president. The reception of Mr. Meyer was characterized by the greatest cordiality and friendliness and the ambassador's colloquy to the president, giving a general account of the audience, was of a decidedly encouraging tone. Mr. Meyer did not bring to the czar government an offer of mediation, but a friendly "offer of good will," as it was described by Count Cassini, which was apparently gratifying to the czar. Further than this it is impossible to record the character of the colloquy.

Japanese Minister Calls. Mr. Takahira, the Japanese minister, called by appointment at the white house this afternoon and spent an hour with the president. He was still unable to give the president the slightest indication regarding the Japanese peace terms, but it is believed he is acquainted, in a general way, with Mr. Meyer's dispatch and with this as a lever, the hope is expressed here that the mikado will meet the president half way in the efforts he is making to bring about an early peace.

Later in the afternoon Sir Mortimer Durand, the British ambassador, saw the president and tonight Baron Speck von Sternberg, the German ambassador, was at the white house for nearly an hour. None of the callers would discuss their visits and it can be stated that, with the exception of the call of Mr. Takahira, none of these visits was of great importance. It is not expected that the situation will change radically in the next day or two.

Waiting on Japan. Until some indication comes from Japan of her attitude in the light of the spirit shown by the czar, the negotiations can hardly be expected to progress. Meantime powerful, though friendly influence, is being brought to bear on Japan to moderate in her demands. These hopes have not been realized yet, although information has been received that Great Britain will welcome peace.

It is still hoped, however, that some assistance from that quarter may yet be forthcoming. Berlin and Paris are both giving loyal assistance to the efforts initiated in Washington and the result of Berlin's activity is already being felt.

Further instructions have been sent Ambassador Meyer at St. Petersburg, but the Russian ambassador, Count Cassini, the Russian ambassador, called at the French embassy today, where he had a long talk on the situation with Ambassador Jusserand.

British Warships Coming. Washington, June 8.—The navy department has been advised through the British embassy of the intended visit to American waters this autumn of Prince Louis, of Battenburg, with a squadron of British warships consisting of the under-stand here, of four cruisers. The squadron will visit New York and then Annapolis. From the latter place, the prince is expected to come to Washington.

TEARS ARE SHED BY KING OSCAR

When Secession of Norway Is Finally Announced.

Christiania, June 8.—The startling this afternoon empowered the president of the house to forward to King Oscar the address adopted yesterday, with a covering memorandum.

The prayer book of the Norwegian church has been modified in accordance with the change in the political situation being omitted.

Mr. Paulsen, Premier Michaelson's secretary, has returned from Stockholm, where he went to hand the king their letter announcing the decision of the Norwegian government. He says that the king opened the letter and read the first few lines. He then appeared to be deeply moved, and asked his secretary to read it aloud. At the conclusion of the reading his majesty vented his feelings in unrestrained terms, but soon became calmer and spoke amiably to the Norwegian gentlemen present, assuring them of his increasing affection for Norway and Norwegian people.

Sweden Loyal to King. Stockholm, June 8.—Inhabitants of Stockholm to the number of several thousands assembled in front of Rosendal castle this evening and made a demonstration of their loyalty and affection for King Oscar. His majesty, accompanied by Queen Sophia, Crown Prince Gustav and other members of the royal family, appeared on a balcony of the castle and was greeted by the national anthem, which was sung by the enormous crowd accompanied by brass bands.

Nicholas Is Told That He Must Convoke a National Assembly.

CIVIL WAR DECLARED

TO BE NEAR IN RUSSIA

Document is Remarkable Because of the Absence of the Customary Phrases of Respect—Czar is Told That He Must Not Delay.

St. Petersburg, June 9.—1:50 a. m.—The voice of the delegates of the zemstvos and the municipalities demanding in no uncertain tone the immediate convocation of a national assembly to pass upon the question of peace or war, to heal internal strife and to unite the people for the rejuvenation of Russia will be heard in the address adopted by the all Russian zemstvo congress at Moscow, which a deputation headed by Count Hayden and M. Shipoff is bringing to present to the emperor. The document bids fair to become historic. The customary phrases of respect at the opening and closing are omitted and it is otherwise uncereceremonious, employing the direct personal pronoun.

The address arraigns the bureaucracy and reminds the emperor that his pledge to convoke a national assembly is slow of fulfillment. It says the country is on the verge of civil war and even ventures to criticize a royal measure.

The address urges the summoning of a national assembly that the war may become national. There is intense interest to learn whether the emperor will receive the bearers of so bold a message. The address is a lengthy document, from which the following are extracts:

"Sire, Russia has been drawn into a disastrous war by criminal abuses and the negligence of your counselors. Our army is powerless and our fleet has been annihilated, but more menacing than this extreme peril is the prospect of a civil war waged by your people against all the values of a dangerous and ignorant bureaucracy.

"Sire, before it is too late, for the welfare of Russia, command a convocation of representatives of the nation, elected by equal franchise and let these elected representatives decide with you the vital question of war or peace, thus transforming the war into a national one.

"Sire, do not delay. Great is your responsibility before God and before Russia in this terrible hour of national trial."

Attack on Dead Senator at Convention of Editors.

Guthrie, Okla., June 8.—The action of James A. Benn, city editor of The Philadelphia North American, in attacking Governor Pennypacker and the late Senator Quay in an address before the National Editorial Association today, has caused a fight in the Pennsylvania delegation, and tonight F. B. McKee, of Freeport, T. H. Harter, of Bellefonte, and F. S. Phelps, of Erie, Pa., assert they will put a resolution tomorrow condemning Mr. Benn's course.

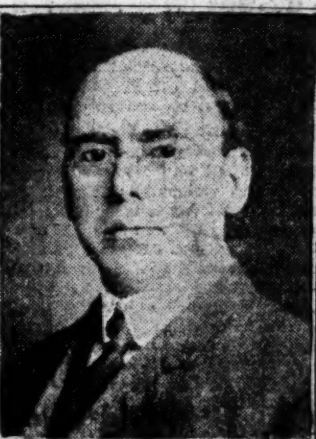

Mr. Benn, in his address of the "Muzzlers of Pennsylvania," reviewed the organization of the so-called Quay machine and the events leading up to the passage of the Pennsylvania law. He blamed Mr. Quay for this severe law, declaring that it was Quay's governor that instigated it. He closed by saying:

"There never was a Quay or Pennypacker born who could form or invent a measure that would restrict the liberty of the press or hamper it in its constitutional right of public utterance. The Quays of Pennsylvania desire unimpaired biographies; tell them to leave behind them records free from stain. If the Pennypackers of Pennsylvania or any other commonwealth in this union desire effectually to muzzle the press, they must be themselves to some other land than that in the fundamental law of which it is written the freedom of the press ought not to be restricted."

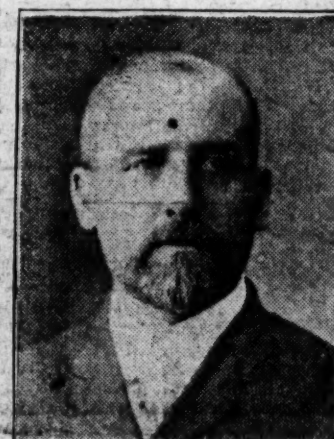

President Squires delivered his annual address this morning. J. W. Carr, of Anderson, Ind., spoke on "The Public School and the Press."

EXCLUSION LAW STYLED UNJUST

New York, June 8.—The board of directors of the Merchants' Association today adopted a resolution favoring reciprocity treaties with the principal European nations and providing for the appointment of a committee to urge congress to adopt them and to solicit the cooperation of other commercial bodies in the movement.

A resolution was also adopted declaring that as "the most important foreign outlet for American manufactures, particularly cotton goods, and the market which promises an immense expansion in the near future, is China, and it is the sense of this association that existing laws of the United States excluding Chinese subjects of a class whose immigration is not subjected to restriction by the terms of the treaty, are harsh, unreasonable, wrongfully violative of the sacred obligations of a treaty and detrimental to the best interests of the people of the United States, and this association therefore earnestly urges upon congress their repeal and recommends the negotiation of a new treaty with China which, while providing for the proper regulation of undesirable Chinese immigrants, shall likewise permit freedom of entry and of domicile upon the part of the Chinese not of the laboring class, and with whom the maintenance of friendly relations is of prime importance to the development of the business interests of this country."

By the unanimous vote of the convention of the National Association of Master Plumbers at their last session yesterday afternoon, and amid the liveliest enthusiasm, C. J. Boyd, of Chicago, was elected president for the ensuing year.

The nomination was made by Delegate H. Brown, of New York, and was seconded by the chairman of nearly every delegation present. It was thought that Mr. Boyd would have considerable opposition, Joseph A. Weldon, of Pittsburg, the first man to second the nomination, having been mentioned as one opponent.

Mr. Boyd was escorted to the platform by one of the sergeants at arms and in a short speech thanked the delegates for the honor conferred upon him, and assured them of his best efforts to worthy discharge the duties of the presidency.

GENERAL PORTER OR PAUL MORTON

New York, June 8.—The nominating committee appointed by the directors of the Equitable Life Assurance Society to name a chairman of the board who will direct the affairs of the society, met today, but adjourned until tomorrow without definite action. It was learned, other than the dismissal of the name of Judge George Gray, of Delaware, in connection with the chairmanship. The adjourned meeting of the board will be resumed at 1 o'clock tomorrow, at which time a report from the nominating committee is expected. It is understood that among the names under consideration today were those of Paul Morton, who is soon to retire as secretary of the navy, and General Horace Porter, former ambassador to France.

President J. W. Alexander, and Vice President J. H. Hyde were examined today by State Superintendent of Insurance Hendricks, whose inquiry into the affairs of the society is drawing to a close.

Among the developments of the day were the announced resignation of Robert T. Lincoln from the board of directors, the cancellation of a \$50,000 policy by M. E. Ingalls, recently resigned as a director, and a statement by A. W. Kreech, president of the Equitable Trust Company and a director of the Equitable Life, that there was absolutely no truth in the published report that the inquiry of the state insurance department would show a new improbity involving \$10,000,000.

TRAIN RACED EACH MINUTE OVER A MILE

Remarkable Speed Test Is Made by Officials of the Pennsylvania System.

TRAIN GOES 468 MILES IN JUST 440 MINUTES

Time is Phenomenal, Although No Special Effort Was Made—Average Speed Was More Than 63 Miles an Hour, Including All Stops.

Pittsburg, June 8.—The distance between Chicago and Pittsburg over the Pennsylvania lines, 468 miles, was covered in the phenomenal time of 440 minutes without much effort today. A special train, practically a counterpart in size and weight of the "Pennsylvania Special," the new eighteen-hour train between Chicago and New York, which is to be established by the Pennsylvania next Sunday, June 11, was taken over the route and strengthened the confidence of operating officials of the road in their ability to annihilate the distance. General Superintendent A. M. Schoyer, was in charge of the train, which also carried other officials and a guest, L. F. Loree, former general manager of the Pennsylvania lines, later president of the Baltimore and Ohio and until recently in a similar capacity with the Rock Island.

More Than a Mile a Minute. The train left Chicago union station about 7:30 o'clock Thursday morning, rolled into Pittsburg union station at exactly 2:45 p. m. The average speed of 63 53-100 miles an hour was maintained, including all stops. The train was standing still twenty-eight minutes and the actual speed per hour while the train was in motion was 68 1-10 miles.

During the first hour it ran 62 miles, in the second hour it covered 73 miles, in the third hour 71 miles, including the stop at Fort Wayne to change engines. In the fourth hour it covered 68 miles, including stops. Sixty-two miles

BY WIRELESS TELEGRAMS TRAINS ARE TO BE RUN

CHICAGO, June 2.—As a further protection to their train service, the Chicago and Alton railroad announced today that the company had made all arrangements for the establishment of a wireless telegraph system on all trains running between Chicago and St. Louis, and that eventually the innovation would be extended to the entire system. That the wireless telegraph can be used on fast moving trains with entire satisfaction was demonstrated today by the Alton road, when messages

were sent from Chicago to the offices of the road traveling on the limited train, running between Chicago and St. Louis. The observation car on the train was equipped with wireless apparatus, and while running at the rate of 50 miles an hour messages were received from President Fulton in the general office in Chicago, and replies sent back without the slightest hitch. So successful was the experiment that it was decided to equip at once all trains running on the line between here and St. Louis with the wireless apparatus.

SHORT ITEMS OF LOCAL INTEREST

R. D. BRIZENDINE, A PROMINENT insurance man of Atlanta, died suddenly yesterday morning of heart failure at his residence, 250 East Fifth street. Mr. Brizendine was sitting upon his front porch when the attack came upon him. Immediately after the family discovered that Mr. Brizendine was ill medical aid was summoned, but the physicians could do nothing to save the stricken man's life. He died a few minutes after the attack. R. D. Brizendine was 55 years old and was a native of Iowa. One daughter survives him. Funeral arrangements will be announced later, but it is very probable that the interment will take place Sunday.

FUNERAL SERVICES OF MRS. ELLIOTT, wife of Charles Elliott, of the Western and Atlantic railroad, who died Wednesday night, will be conducted this afternoon at 4 o'clock from the Church of the Immaculate Conception. The interment will occur at Oakland cemetery.

OVER THE BODY OF MRS. S. J. Taylor, who died Wednesday, funeral services were conducted yesterday afternoon at 3 o'clock from the chapel of H. M. Patterson. The interment took place in Westview cemetery.

FUNERAL SERVICES OF MISS Juliet Marshall Williams, the young daughter of Mr. and Mrs. William F. Williams, were held yesterday morning at 10 o'clock at St. Luke Episcopal church. Rev. C. B. Wilmer officiated. The body was interred in Oakland cemetery.

THE BODY OF MRS. ELLA FRASER was carried at noon yesterday to Opelika, Ala., where funeral and interment will take place. Mrs. Fraser died Wednesday evening of heart disease. She had been ill for some time. Mrs. Fraser leaves a large circle of friends that mourn her death.

AN ADDITION WAS MADE YESTERDAY to the capitol's curios in the shape of an old shell used in the civil war of the sixties. This shell, which is about a half inch in diameter, is unexploded and is supposed still to contain its full charge of powder. It was found yesterday at McAfee and Simpson streets by a negro who carried it to the capitol and presented it to Colonel A. J. Scott, assistant adjutant general. Colonel Scott has placed it beside one of the captured Spanish cannons which adorn the capitol grounds.

COMPTROLLER GENERAL W. A. Wright decided yesterday to name Railroad Commissioner Joseph M. Brown as the state's arbitrator in the case of the tax returns of the Atlanta and West Point Railroad Company, which he increased about \$400,000. J. Ferris Cann, of Savannah, has been named as the road's arbitrator, and it is expected the arbitration will be had some time next week.

NICE TO FORGET YOUR STOMACH

You know anyone in perfect health never "feels" at the stomach; it's forgotten like any other part of a perfect running machine. No jar, no shock, no sensations at all; just easy, pleasant, restful work—duty well done.

THE WAY

lies in the proper selection of food and drink, getting down to Nature's principles, plenty of good air, good water, and particularly plenty of good food that will easily digest, and nourish and rebuild, not clog up.

A Food Expert,

understanding how the body worked upon food and what kind of elements it required to rebuild itself, used this knowledge in a skillful way to produce a perfect food and called it

Grape-Nuts

There is the natural Phosphate of Potash and Albumen, from which the life forces make the soft gray filling of nerve centres and brain, so brain fog and nervous prostration disappear for the user of Grape-Nuts.

Then again, in Grape-Nuts the starchy part of the Wheat and Barley has been changed into sugar by cooking at the factory, and, as that is exactly the condition which starchy food, bread, cake, oatmeal, potatoes, etc., assumes after the first act of natural digestion has taken place, so we find Grape-Nuts has passed through this process, outside the body and is therefore properly termed pre-digested, a tremendous help for those who are a bit weak in digestive power, and so comes

CREAM POISONS MANY GUESTS

"Red" Russell and "Doc" Wiseman, of Nashville Team, Among Number.

Nashville, Tenn., June 2.—Twenty-one guests of local hotels were taken suddenly ill today shortly after dinner. Ice cream was served at the meal and attendant physicians attribute the sickness to a preservative used in the milk or to ptomaine poison. Tonight five doctors are busy engaged among the affected guests, some of whom are in a serious condition.

The list of sufferers includes Chief Templar C. T. Kelly, Independent Order of Good Templars of Tennessee; Umpire W. C. Black, of the Southern Baseball League; "Red" Russell and "Doc" Wiseman, of the Nashville Baseball Club; several members of theatrical attractions showing here and six members of a criminal court jury.

THEATERS.

The National Association of Master Plumbers will always remember their trip to Atlanta with pleasure and one of the most delightful events of their stay in Atlanta was the performance which they attended in a body last night at the Casino. Every one expected a good time, but it isn't too much to say that few expected such a royal time as they really had last night.

Little Chip was at his best and his singing, dancing and his good natured jests at the visitors brought out prolonged applause. It was just the sort of show to put everybody in good humor, and judging from the applause and encores the big crowd enjoyed every minute of the performance. Mary Marble fairly outdid herself, and the balance of the company seemed to feel the compliment that was bestowed on the organization and did their best to entertain the visitors. The performance seems to go with added energy and a better show will never be given in the popular amusement of the city. The Wells, Dunn, Harlan Company will give just three more performances, tonight, a matinee tomorrow afternoon and a final and farewell performance Saturday night. The engagement will linger most pleasantly in the memories of local theatergoers, and everybody will be loth to say goodbye, forever, to one of the best musical comedy organizations that has ever graced an Atlanta stage.

Walter Edwards, one of the favorites of the Bijou circuit, will be the next attraction for the Casino, opening there next Monday night for a week's engagement. Mr. Edwards will present the famous old comedy, "The Taming of the Shrew," in which he has one of the best parts of his stage career.

Mr. Edwards' splendid performance of David Garrick would lead his many friends to anticipate something unusually good in this timely revival of "The Taming of the Shrew."

The sale of seats will commence this morning at the Bijou box office.

Skating Auditorium.

Yesterday was ladies' day at the skating auditorium on Peachtree street and the big amusement place was the most popular place in the city. A delightful band concert, was rendered last night and couples only were admitted to the floor. Several hundred ladies and their escorts enjoyed the sport during the evening, and the scene presented was a brilliant one.

During the morning ladies only were admitted to the auditorium and the fair skaters had the big building all to themselves. A cool breeze circulated through the auditorium all day long and the day was a most enjoyable one for the skaters. There will be a concert at the auditorium tonight and tomorrow night and the usual programme will be observed, the auditorium being open to the public afternoon and evening.

MORTUARY.

Funeral of J. B. Price. Columbus, Ga., June 2.—(Special.)—The remains of J. B. Price, the Columbus engineer whose neck was broken by a fall from his bed room window in Greenville, Ga., Tuesday night, were buried in Linwood cemetery, this city, this afternoon. The Masons, Knights of Pythias and many Red Men attended the funeral services.

Mrs. Folly Williams, Harris Co., Ga. Columbus, Ga., June 2.—(Special.)—Mrs. Folly Williams, aged 84 years, died this morning at the home of her daughter, Mrs. A. B. King, in Harris county. She was the widow of the late J. D. Williams.

R. B. Jordan, Roanoke, Ala. Roanoke, Ala., June 2.—(Special.)—R. B. Jordan, an old and highly respected citizen, died yesterday. Miss Bertha Black, Mineral Bluff, Miss Bertha Black, daughter of J. M. Black, merchant of this place, died yesterday. The interment was at the Morganton cemetery.

WANT THE RIGHT TO RETAIN JOBS

Members of Council May Decide to Succeed Themselves.

Eleven Members Yesterday Voted to Reconsider Action of Last Monday in Voting Down the Ordinance Which Provides For Two Terms.

Members of the general council may yet consent to succeed themselves in office, the people being willing. Eleven members of the body during the session of yesterday afternoon paved the way for a declaration during the next regular meeting that "Barkley wills."

This was accomplished by reconsidering the action of last Monday afternoon, which consisted of the adoption of an adverse report upon the resolution of Councilman Oldknow allowing aldermen and councilmen to succeed themselves for one term.

The resolution provides that permitting for this change in the policy of the city government be secured from the general assembly of the state in an amendment to the city charter.

When the adverse report of the ordinance committee was adopted last Monday afternoon it was supposed that the resolution was dead. Yesterday afternoon Councilman Goodwin moved to suspend action upon the general ordinance.

By a vote of 11 to 9 his motion was adopted.

Councilman Goodwin then moved that the action of council last Monday with reference to members succeeding themselves be reconsidered. Councilman Patisso made the point of order that Councilman Goodwin had not voted with the majority, and therefore could not move to reconsider.

City Attorney Mayson sustained the point, and Mayor Pro Tem, Harwell declared Councilman Goodwin out of order.

The motion to reconsider was renewed by Councilman Curtis, and it was adopted by a vote of 11 to 9. This was followed by a motion from Councilman Goodwin laying the original resolution upon the table until the next regular meeting, which was adopted.

That was all there was to the action of yesterday afternoon, but the indications are that it will furnish a lively debate during the next regular meeting.

Would Muzzle Dogs. An ordinance by Councilman Curtis providing that all bull dogs and such other dogs as are vicious be muzzled, was introduced yesterday afternoon by Councilman Curtis and it was referred to a committee for action, after an unsuccessful effort had been made to lay it upon the table.

A new ordinance regulating the hexagon the business of Atlanta was introduced by Councilman Ellis and was referred to the street committee for action. The ordinance sets a standard for hexagonal tiles that are used for sidewalk purposes, provides for regular inspection of the works of all hexagon tile companies and provides that they be required to give bond to the city.

The salary committee, of which Councilman Foster is chairman, reported favorably upon a resolution by Alderman Holland providing for such a charter amendment as will permit an increase in pay for the commissioner of public works and the city tax collector.

"Your honor," said Councilman Patterson, "I know of some other city officials whose salaries have not been raised and I think we ought to do something for them."

I refer to the general manager of the water works and the secretary of the water board. I move to amend the report by including these two officials."

Alderman Hirsch seconded the amendment and it was adopted.

The favorable report of the salary committee was then adopted.

ATLANTIC CITY GETS PLUMBERS

for nominations for vice president. The name of H. B. Moodie, of Dayton, Ohio, a member of the board of directors, was placed in nomination, and was seconded by delegates from many states.

Like Mr. Boyd, Mr. Moodie was elected without opposition, there being a special motion in each case that the secretary cast a vote making the election unanimous. Mr. Moodie spoke briefly, his address being well received.

President-elect C. J. Boyd announced for the selection of national secretary for the ensuing year T. Byrne, of Chicago, and the selection, by motion, was ratified by the convention.

E. D. Hornbrook, in a brilliant speech, made a motion that W. E. Goodman, of Milwaukee, the retiring treasurer, be made a life member of the National Association of Master Plumbers. William M. Cochrane, of Philadelphia, offered the substitute that he be made a life member of the association, and that he be given \$500 with which to purchase for himself a suitable testimonial. The substitute was passed by a rising vote.

Motion was made and passed authorizing the board of directors to purchase for David Craig, the retiring president, a suitable testimonial.

Atlantic City Chosen. The next piece of business was the selection of a place to hold the next convention.

Atlantic City won in a walk, the expected strong fight which Boston and Salt Lake City were making on material. When it came to a showdown, only Detroit and Memphis made any effort at all to secure the convention, and in view of the overwhelming majority with which Atlantic City was chosen, theirs was a very feeble one.

A vote of thanks was tendered the trade and the local press for faithful and full publication of the proceedings of the convention. The national state vice presidents for the ensuing year were named by each delegation. A. F. Billingshirst, of Atlanta, being chosen for Georgia.

A vote of thanks was tendered the city of Atlanta, the local association of master plumbers, and ladies for the cordial treatment accorded the delegates during the convention. It was passed by a rising vote and amid enthusiasm.

A motion was made and passed that the Tradesman Trust Company, of Philadelphia, be chosen as the depository of the convention for the ensuing year. A vote of thanks was tendered the two secretaries at arms for their faithful service during the convention and to the retiring officers for their service.

The committee on the whole reported during the afternoon session. The committee favored the elimination of plumbers from the general contractors' specifications. The committee also recommended that the national dues remain the same. The report was adopted.

D. W. Yarbrough, the national state vice president for Georgia, who on account of illness was unable to report before, read the annual report for the state. It showed that the association was prospering in Georgia as it has never prospered before.

A letter was read from Father Bazin, of the Church of the Immaculate Conception, vicar general for Georgia, granting the members of the National Association of Master Plumbers who are Catholics, a dispensation from the abstinence of eating meat on today.

The report of the committee on apprenticeship was to the effect that the national committee on apprentices do its utmost to devise a system of instruction and that each local association try to deal with the matter according to local conditions.

The question of dealing with apprentices has been a burning issue in every convention held in the past fifteen years. The journeymen plumbers, naturally, want as few apprentices as possible, while the fewer the number the higher the wages.

The chairman of the Indiana association, after hearing the report, moved that the matter of apprentices be left to each locality to settle as it sees fit and proper. Mr. Danahue, of Boston, composed the motion.

J. L. Furman, of California, stood out for the apprentices, saying that no stumbling blocks should be thrown in front of the American boy and that he should be free to be an apprentice if he pleased.

The report of the apprentices committee was adopted.

The morning was devoted to an executive session.

Yesterday afternoon, between 4 and 6 o'clock, a reception to the ladies of the convention was given at the home of Mrs. John Lucas Mell, chairman of the ladies' auxiliary of the entertainment committee.

Last night a car ride was enjoyed by the delegates, visitors and their wives. After a ride through the city, the cars wound up at Ponce de Leon springs.

The guests of the local association, who took a look around the park, trying their hands at the merry-go-round, toboggan slide and the chute-the chutes.

The Mysterious Thirteen Club, which originated with the master plumbers Tuesday, held initiation exercises late yesterday afternoon, seventy-five candidates passing through the mysterious realm of the thirteen.

Who is starting at the Casino this week was elected an honorary member, and she wore the badge, which is scarlet with the word "Thirteen," printed on it, at the performance last night.

Barbecue Today. This morning at 10:30 o'clock, the delegates will go to Brownwood, where the barbecue will be held. There will be music and fun galore. In addition to all the varieties of barbecue imaginable. Cars will leave convention headquarters at 10:30 o'clock.

This morning, the editor of the daily issue of The Plumbers' Trade Journal will be issued.

Among the late arrivals at the convention is Daniel Sullivan, of Baltimore, Md., one of the most prominent members of the association. Mr. Sullivan is the first man who ever penned a line for the association.

were run in the fifth hour. In the sixth hour, the speed was 51 miles, but during the hour the train was standing still thirteen hours. In the seventh hour, 62 miles was reeled off, notwithstanding a stop was made during that hour.

From Clark Station to Fort Wayne, a distance of 126 miles, the speed per hour averaged 75 3-10 miles, including stops. The record shows that mile after mile was made at the remarkable speed of from forty-two to forty-four seconds. Regardless of the high rate at which the train was running, the passengers aboard enjoyed smooth riding.

More Fast Schedules. Philadelphia, June 2.—Following the reduction in running time to eighteen hours between New York and Chicago, the Pennsylvania Railroad Company in order to give the people of the southwest the benefit of its facilities, will on Sunday, June 11, materially reduce the time between New York and Philadelphia and Cincinnati and St. Louis. The St. Louis limited, now leaving New York at 9:55 a. m., will leave at 10:55 and arrive at St. Louis at 1:30 p. m. the next day, the same hour as at present, thus reducing the running time by one hour.

On the same day a fast schedule will be inaugurated between Cincinnati and New York, leaving at 2:15 p. m. and arriving at New York at 8:15 the next morning, making the running time seventeen hours.

Negro Hanged in Arkansas. Desarc, Ark., June 2.—John Fraser, a negro, was hanged here at 2:01 p. m. today for the murder of Webster Southard, a timekeeper on the Searcy and Desarc road, near here, November 8 last. The killing was over a dispute about money.

COTTON BURNS AT CONYERS. About Fifty Bales Are Destroyed, All Being Insured. Conyers, Ga., June 2.—(Special.)—Yesterday evening a fire broke out on the platform of the Conyers railroad depot and burned about fifty bales of cotton. The cotton piled on the platform caught fire from the spark of a passing train, smoldered and burned all night and was only extinguished this morning. It took great watchfulness to save the depot. The cotton belonged to the Millstead Manufacturing Company, but the loss will fall on the company with whom it had been insured.

MOULTRIE GETS B. Y. P. U.

State Convention Meets There June 20-22 and Will Be Largely Attended.

A widespread interest is being taken among Baptists of the state in the coming state Baptist Young People's Union convention which meets at Moultrie June 20-22. The indications are that the meeting will be one of the largest and best in the history of the organization. A convention will be presided over by President Robert VanDeventer of Savannah. This will be the eleventh annual convention, the body having been organized in 1895. The first president was Rev. J. L. White, of Macon.

The programme of the coming convention is an excellent one, built about the key theme, "Consecration, a Service." Addresses will be made on the "Extent of the Service," "Its Character," "The Ground of the Service," "The Joy of the Service," "The Gain," "The Privilege" and "The Crown of the Service." There will also be the usual addresses of welcome, which will be responded to by Will D. Upshaw. All of the devotional services will be led by Rev. W. L. Walker. The junior service, in charge of the state junior leader, Mrs. J. H. Moncrief of Greensboro, will be one of the most attractive features of the programme.

Names of delegates should be sent to Rev. A. M. Bennett, Moultrie, chairman of the entertainment committee.

The railroad rates are one fare plus 25 cents for the round trip. Reduced rates have also been granted from all points in South Carolina, Florida and Alabama. The Atlanta delegation will go in a body via Central of Georgia railway, leaving Atlanta at 8 a. m. on the 20th instant.

The Atlanta city Baptist Young People's Union will meet Thursday night, the 16th, at the Capitol Avenue Baptist church. This will be the final rally before the Moultrie convention.

ATLANTA OFFICE IS FIRST.

Office of Internal Revenue Collector Rucker is Completed.

General G. M. Clark, of Washington, D. C., a government inspector of internal revenue offices, his work being that of a special accountant, has completed an examination of Collector Rucker's department. General Clark makes his report direct to General John W. Yerkes, commissioner of internal revenue at Washington. Of internal revenue offices there are an even sixty-four in the entire United States, and from them the national government derives a large revenue. The Atlanta office during the last fiscal year delivered to the headquarters almost a half million dollars. Outside of New York, Illinois, Ohio, California and Pennsylvania, Georgia ranks among the largest producing states.

The sixty-four internal revenue offices are rated by Commissioner Yerkes. In a letter to Collector Rucker received yesterday from General Yerkes, Collector Rucker was informed that the Atlanta office is reckoned the best of the sixty-four, and was given a rating of "A-1."

TAX ORDINANCE GOES TO MAYOR

Measure Was Amended and Adopted Yesterday.

Large Number of Merchants Appeared Before General Council for Purpose of Protesting Against Increase in Their License and Were Heeded.

The general tax ordinance was read, debated, considered, amended and adopted yesterday by the general council. About three hours and thirty minutes was consumed in the work.

The ordinance becomes effective on July 1, 1905, and remains in force for twelve months. It is the work of the tax committee, of which Alderman Hirsch is chairman, which reported it for adoption during the session of last Monday afternoon. It was laid upon the table for the adjournment of yesterday afternoon.

A number of other measures of importance were disposed of before the ordinance was taken up.

Merchants Enter Protest.

The fact that the new general tax ordinance was to be considered and adopted brought fifty or more merchants of various kinds to the council chamber to protest against the scale of license taxes proposed for adoption by the tax committee, of which Alderman Hirsch is chairman.

Representatives spoke for the coal and wood dealers, the cash register companies, the employment bureaus, the lumber merchants, the retail grocers and the peddlers.

The retail grocers wanted a prohibitive license placed upon the peddlers, and the peddlers wanted the amount of their license to be the same as that required of the retail grocers.

After all sides had been heard from Alderman Hirsch spoke for the tax committee.

Scale of Licenses.

The following scale of licenses was required by the general council upon business regarding which speeches had been made:

- Cash register agents or dealers, \$200 per annum.
 - Coal and wood brokers, selling to other than registered merchants, \$100 per annum.
 - Employment bureaus, \$75 per annum.
 - Coal, wood and lime, except wood from land owned by wagoner, no license to issue for less than the full price of one year, \$25.
 - Peddlers in fruits and produce, no license to issue for less than the full price of one year, \$200.
 - Peddlers in fruits and nuts, payable in advance, \$100.
 - Lumber merchants, operating lumber yard, alone or in connection with any other business, \$25.
 - Lumber manufacturers, or dealers in, at wholesale, selling only to merchants, alone or in connection with any other business, \$50.
 - Striking \$50 license upon wholesale dry goods.
 - Lumber agents, brokers, firms or persons, selling on commission at wholesale, alone or in connection with any other business, \$50.
 - Hacks, two horses, \$25.
- A resolution by Councilman Patterson, providing that no license issue for employment agencies until after the character of the applicants have been satisfactorily investigated, was adopted.
- Council adjourned at 7:30 o'clock, having been in continuous session since 3 o'clock in the afternoon.

VETERANS TO HAVE MUSIC.

Firemen's Drum Corps Will Again Head Atlanta Veterans in Reunion Parade.

The Atlanta Fire Department Drum and Bugle corps, the organization that has for years headed the Atlanta Confederate veterans in the annual reunion parade, will again perform that service this year during the Louisville reunion.

The general council yesterday afternoon appropriated \$350 for the purpose of sending the drum corps with the veterans, and, therefore, Atlanta is again to have this splendid advertisement which every year causes shouts for Atlanta during the reunion. The drum corps will go as the special band of Camp Walker, Atlanta Camp, Camp Pike Anderson and Camp A. Wheeler's cavalry.

Mayor Woodward, a number of the aldermen and council and several city officials will go to the reunion this year. Indications are that Atlanta will be better represented than ever before.

LANG SECURES INJUNCTION.

Claims That Savannah Grocers Discriminated Against Him.

Savannah, Ga., June 8.—(Special.)—Temporary injunction was granted by Judge George T. Cann today against the Savannah Wholesale Grocers' Association and merchandise brokers, of the city, ordering that they do not live up to the terms of an alleged agreement into which they have entered against Nicholas Lang, the petitioner. Mr. Lang alleges that because he had refused to join the Savannah Wholesale Grocers' Association he has been discriminated against, the association having demanded that brokers should not sell to him, and an agreement having been reached that a broker selling to him should pay a fine of \$100.

MERCER HOLDS TO ITS ACTION

Twelve Scholarships Will Go to City of Macon.

Although Not a Contract, Resolutions State, the University Will Adhere to and Carry Out the Intentions of Its Trustees.

Constitution Bureau, 467 Second Street, Macon, Ga., June 8.—(Special.)—A communication from Secretary E. Y. Mallary, of the board of trustees of Mercer university, today announced to the mayor and council the purpose of the institution to hold to the action of the board in Columbus last fall with regard to the twelve scholarships given to the city. Secretary Mallary cites the mayor and council to the resolutions of the body at that time. The letter goes to Acting Mayor W. J. Massee.

The resolutions were as follows:

"The attention of the mayor and council of the city of Macon is respectfully called to the following official communication which was addressed to your honorable body by Dr. John G. Harrison, former secretary of the board of trustees, about the 27th day of November, 1904, which communication fully set forth the action of the board of trustees on the 23rd day of November, 1904, touching the question of scholarships as therein stated, to-wit:

"Although it is evident after thorough investigation that the offering of the Macon scholarships by the trustees of Mercer university was not a part of any contract of any nature but on the contrary an entirely gratuitous act without consideration, on the part of the trustees who passed the resolution offering the scholarships; still in order that the intention of said trustees may prevail, namely to teach free of charge—twelve young men of the city of Macon 'who are unable to pay tuition.'

"Therefore, be it resolved by the trustees of Mercer university, first, That free tuition be granted to twelve young men of Macon on the following terms:

- "1. Those wishing to share in this benefaction shall apply directly to the president of the Mercer university.
- "2. They shall be bona fide residents of the city of Macon.
- "3. They shall be such who are unable to pay tuition."

"Resolved second, That the president and faculty of Mercer university shall enforce the foregoing provisions after a manner analogous to that used by them in administering other similar benefactions.

"Resolved third, That this offer of free tuition hold for so long time only as it shall be found satisfactory to this board."

of the class for the last two years. He is a member of the Kappa Alpha fraternity.

R. S. Parker, of Atlanta, was elected permanent secretary of the class. He is a member of the Phi Kappa fraternity. Arrangements are now being made by the class officers for the reunion which is to be held in Oxford in 1910.

Every member of the class is requested to write the secretary the first of each year and give in his address for the ensuing year.

Palmer Institute Commencement.

Oxford, Ga., June 8.—(Special.)—The commencement exercises of Palmer institute were held in Few hall on the Emory campus June 7. The graduating class was composed of Messrs. Howard Stone and Horace Sandford, both of Oxford. These young men will enter the freshman class at Emory college next fall.

The following was the commencement programme: Devotional exercises, Declaration, "The South Before the War," Perry Sandford, Duet, "Misses Julia and Annie Dickey," Recitation, "A Child from a Singular Life," Miss Ruble Worsham, Song, Recitation, "Bijah's Story," Miss Mary Starr, Solo, Miss Annie Sue Bonnell, Declaration, "The Lazy Man," Harry Stone, Duet, Misses Kate and Louise Adams, Recitation, "Young Headless," Miss Jessie Dickey, Solo, Miss Virginia Peed, Declaration, "The Men of the Mountains," G. A. Stone, Declaration, "Education and the Voluntary School Tax," Horace Sandford.

Miss Marie Evans, Address to the class and delivery of diplomas and common school certificates by Principal N. A. Goodyear.

Gainesville Teachers Elected.

Gainesville, Ga., June 8.—(Special.)—The city board of education has elected a superintendent and the teachers for the Gainesville public schools. Professor J. D. Garner, who has filled the position of superintendent for the past year, was unanimously re-elected. The following other teachers were elected for the ensuing year: W. M. Johnson, principal of the high school; Miss Harriet Brodgon, Miss Nell Murphy, Miss Hilda Dodier, Miss Virginia Porter, Mrs. N. M. Pope, Mrs. G. R. Bickers, Miss Jennie Kendall, Miss Lizzie Green, Miss Corinne Loper, Miss Ida Wallace, Miss Clyde Manning, Miss Ida Lloyd, Miss Eula Latham and Miss Worley Montgomery.

For the colored schools Professor C. E. Williams was re-elected principal and Mrs. C. E. Williams and Mrs. S. A. Peters, assistants. During the past year the Gainesville public schools had a most successful and satisfactory work.

MUSE'S

Chamberlin-Johnson-DuBose Co.

We Close Saturday at 1:00 O'clock

These are the days when you think of ocean breezes and meadowy zephyrs and Cotton Dress Goods all in one breath. You needn't. Some of the Cottons are airy enough to monopolize the thinking, and the prices are fit to take your breath away.

Ginghams--freshened styles and a bulging stock--Scotch enough to have come from the north of Tweed.

French Organdies--queenliest of them all--crisp, sheer and ablaze with gorgeous blossoms. Prices that make Frenchmen stand aghast.

Paris tissues coax more coolness from 90° weather than any other stuffs can. When the mercury begins to bubble you'll think of them sure. Think now, and there'll be economy as well as comfort in the thought.

There are uncrowned queens and peeresses without armorial bearings that are wearing Cotton Dress Goods this year in regal fashion. Under certain conditions economy is the first element in the ethical culture of Dress. The wonderful Cottons come in just here and give to women with wit to choose a chance to dress well for a trifle.

Prices of Cottons---Have Been Worsted

7c for 10c Lawns and Batistes

There are a dozen extra attractive things in the little-priced Cottons, but none will get closer to your liking than these pretty Lawns and Batistes. Colors as fast, and soft and dainty as can be. Cloth a little coarser than the costliest; that's all the difference. But heavier threads don't mean less wear by long odds. There are a score of uses where these sturdy 10c weaves at 7c count for as much in fitness and in service as the best at 25c or 40c.

7 1-2c for 15c Voiles and Etamines

Those artful American mill-men have set a hard pace for the rest of the cotton-wearing world.

On the counters today you may see new conceits in Plain and Fancy Voiles and Etamines at 7½c that were never before sold here for less than 15c.

Daintiest and dressiest of the lots, perhaps; are the favorite ground colors heightened by beauty spots. You need to see them to sense their full loveliness.

9c for 12 1-2c Printed DIMITIES

A standard Dimity, filmy weight, firm, even thread, soft finish, fast colors, artistic printings.

Myriad styles--stripes, figures and a June flower garden array of blossoms, buds and leafiness on white and tinted grounds.

There is a smashing big lot to begin with, but don't limp, for the end will come all too soon.

We've sold thousands of yards at 12½c.

12 1-2c for 25c Madras Cloth

When a 25c Madras goes at 12½c you are apt to think there's something wrong. There IS in this case: But it isn't in the Madrases themselves--neither in quality, style, weight nor width. It all comes about by one of those little trade turns so likely at this store, and so money-saving to buyers. These are the goods so especially adapted for women's dresses, children's dresses and men's and boys' shirts.

8 1-2c for 15c Fancy Madrases

Striped Madrases. Do you know them? There you have a cotton that will stand grief and come up smiling all the time. No nonsense about Madras. Try to tear a piece--with the warp or across it. Makes you think of leather for toughness, doesn't it? But it's a dressy stuff for all that, and not overly heavy. Just right for tennis or golfing, or everyday waists and dresses for women and children.

10c for 15c Lawns and Batistes

These 15c Lawns and Batistes light up the Wash Goods bargain sky like twin shooting stars. Fine stock, well put together for honest, hard service. The weight is right for now or all summer.

If you want a neat, clean-cut bright dress, pretty without being gay, any of these Lawns or Batistes fills the bill exactly. Here they are in welcome profusion.

12 1-2c for 25c Figured Organdies

This is the sort of weather to set you thinking of organdies--and of all the spider-webby weaves. Only a few makers have the wit to do an Organdie as it should be done--so it won't slip. A mean Organdie is mean, indeed. We look to it that the sleazy, slippery sorts are shut out. A summery stuff--light, delicate, elegant, breeze-wooing--but not limpy and slimsy. Always presentable, always dressy.

Printed Embroidered Swisses at 12½c--never mind the meant-to-be price. From the looms of one of the greatest mills. They've been matchless favorites for two seasons. Worth the regular price without a wink of hesitation. We didn't think to see them less. But the unexpected has come about. Here they are at a clean saving on every yard you take at 12½c.

DR. COPELAND HAS ACCEPTED

Will Soon Take Charge of
Jackson Hill Baptist
Church.

Waynesboro, Ga., June 8.—(Special).—Rev. Oliver J. Copeland has accepted the call of the Jackson Hill Baptist church, of Atlanta, and will take charge in a few weeks.

Dr. Copeland is quite a young man, but has met with unusual success in his pastorate here and leaves the city with the utmost good will and affection of the people of this place. While he has been in charge he has largely increased the membership of the church and has completed a splendid new \$15,000 edifice that is one of the handsomest places of worship in this section.

Before taking up the new work in Atlanta Dr. Copeland will spend some time in north Georgia, with his wife, recuperating.

COTTON PLAN NOT FAVORED

New York Objects to Certifying Staple in Southern Ware Houses.

New York, June 8.—A formal vote which has been taken by the floor members of the New York cotton exchange shows that the plan of certifying cotton in southern ware houses, which has been in agitation for many months on the exchange, has considerable opposition. The vote was on the question of making a change in the by-laws which would be necessary before the plan could be adopted. The members by a vote of 53 to 40 refused to make the required change and sent the amendment back to the board of managers with instructions to permit the membership to vote on the plan itself.

The plan provides for ware houses where deliveries may be made in ten southern cities, under the supervision of officers of the New York cotton exchange with proper insurance provisions and with an officer in each city representing the exchange.

WAR IS OPENED ON FAIRY LAND

Grand Jury Issues Indictment Against Ponce de Leon Manager.

The merry-go-round, the toboggan slide, the loop-the-loop, the shoot-the-chutes, the laughing gallery, the other fairy land at Ponce de Leon springs must present a special machine to judge and jury of the Fulton superior court, with Judge Roan as special guest, to observe whether they are appropriate amusements for the Sabbath.

Constantly since the inauguration of the Sunday features at the springs the ministerial associations of Atlanta collectively and individually have been fighting the Sabbath day amusements. Time and again the ministers of the city have gained access to the grand jury room to protest against the operations of these pleasure giving devices, each time asserting that the laws of both the city and the state were being violated because the work was "not a work of charity, neither was it a work of necessity." But time and again the ministers have lost out in their fight against the Sunday amusements.

Nothing daunted, however, they persevered until finally a grand jury was found which concurred fully with the ministers in their contention that the law was being violated and that the amusement was a violation of the Sabbath. The grand jury adjourned for the day. Mr. Monaghan had in his possession an indictment against William Sharpe, the manager of the amusements which have been operating at Ponce de Leon since they were set up.

BAND CONCERTS AT CUMBERLAND

MUSIC FOR DANCING.
The Fitzgerald Band Will Be at Cumberland for Ten Days, Beginning June 20th—Music and a Good Time for All.

The Fitzgerald band of twenty pieces will be at Cumberland island from June 20 until July 5. The band will give concerts daily and will play in the evenings for the dancers and the skaters. This will be only one of the many pleasant features of a trip to be enjoyed at this delightful resort by the sea. A great crowd is now quartered there and a large party will leave here Saturday night. Cumberland is proving the drawing card to those who are going to the seashore. The table this season is the best and the service perfect. The pavilion on the beach has proven quite the most attractive place there for the children. Special parties are being made up to visit Cumberland this month. The management of the hotel is making special efforts to induce families and parties there this season. Special rates are made that are proving very attractive to those who write for terms. For full information write to L. A. Miller, Hotel Cumberland, Cumberland island, Ga.

WOULD FORM NEW LIGHT BATTERY

Forty-One Well Known Atlantans Want to Form Company of Artillery.

Application has been filed in the office of Adjutant General S. W. Harris for the organization in Atlanta of a new battery of light artillery to be known as the Governor's Light Artillery. The application is signed by forty-one well known young Atlantans, and the organization as proposed contains some excellent material, which could undoubtedly build up an effective organization with the proper officers.

The application is now under consideration, but it will be some days before a decision is reached. One of the difficulties in the way is the lack of proper equipment for an artillery battery. The only thing the state has on hand that could be supplied to the new battery is two old muzzle loading pieces which were formerly used by the Atlanta artillery, an organization that was mustered out of the service shortly after the war with Spain. These would serve for drill purposes, but the men could not learn from them how to handle the breechloading piece. The state at present has no funds with which to equip such an organization with up to date weapons.

The names signed to the petition asking for the organization of the new artillery company are as follows: Robert G. Stephens, Aldine Chambers, Edward P. King, Jr., J. C. Prioleau, H. F. Scott, Jr., Clarence Bell, W. H. Lowe, Marshall Lane, Jr., Charles D. Smith, Carroll D. Cabaniss, Dan B. Dorn, Grover H. Jones, Guy A. Myers, William G. Parks, Louis N. Moore, L. D. McClesky, J. A. Lane, L. C. Rucker, J. F. Baxter, John C.andler, Frank C. Adair, Hoyt Lipes, J. T. Holloway, E. P. Simmons, William Berry, Joseph C. Beckham, Carl P. Hutcheson, A. C. Wisdom, J. B. Jacobway, Lamar Hill, J. L. Anderson, W. S. Bell, Grantland Rice, John Morris, Jr., Robert Timmons, J. O. Cochran, M. S. Rankin, H. E. Moore, Lester Chambers, Ashby Hill, Morris Prioleau.

FOR STATE ORGANIZATION.

Savannah Will Probably Favor Union of Commercial Bodies.

Savannah, Ga., June 8.—(Special).—The Savannah chamber of commerce will probably give its indorsement to the idea emanating from the Atlanta chamber of commerce for a state organization of commercial bodies. The secretary of the Atlanta body, W. G. Cooper, has submitted the suggestion to Secretary Donlan, of the Savannah body, and it is expected that at an early meeting of the chamber favorable action will be taken.

Prince Leopold, Berlin.
Berlin, June 8.—Prince Leopold, of Hohenzollern, died here today. The prince, who was a second cousin of Emperor William, had been visiting his son, Prince William, during the festivities attended the wedding of the crown prince and the Duchess Cecelia. Prince Leopold was born in 1835 and was married to the infant of Portugal.

DEATH TAKES THEO. AMOS JUST AS FORTUNE SMILED

SAVANNAH, GA., June 8.—(Special).—In accordance with the rites of the Catholic church there was buried here this afternoon the body of Theodore S. Amos, 50 years old, who died yesterday after an illness of about a year. Mr. Amos was a member of a noble English family. He was a younger son, and his income was not sufficient to maintain him in his native land. He began to drift, going eventually to Florida, whence, twelve years ago, he came to Savannah, where he had since resided. Slender remittances from England served to keep him going in a way until a year ago, when his mother died, and he became the beneficiary of a considerable trust fund that she had established for him. His health had failed, however, and though he took trips to Indian Spring and other resorts, they failed to restore him to a condition that would admit of the enjoyment of the substance that eventually became his. He was a man of high education and culture, and was well versed in several tongues.

WILL HAVE "CHILDREN'S DAY." KICKS ON THE DOG CATCHER.

Sunday School of the First Methodist Church Has Arranged Special Programme.

The Sunday school of the First Methodist church will next Sunday observe children's day. The service will begin at 11 o'clock in the morning in the auditorium of the new church and will take the place of the regular morning service.

A special programme to be participated in by the children of the school, the church choir and the chorus choir and orchestra of the school has been arranged.

The members of the school have cordially invited the church congregation and the general public to attend.

Citizens Complain That Their Yards Are Being Invaded by the Small Boy Assistants.

Complaints from several sources have reached The Constitution office regarding the zeal with which the small boy assistants to the dog catcher are working. Citizens believe the catchers are overzealous in their efforts to impound the dogs.

The statements are to the effect that the yards of private residences have several times been entered by the dog catchers and it has been necessary to order them off the premises.

The law does not give the dog catcher or his assistants the right to enter yards, even if they be unenclosed. The catchers are permitted to capture dogs only on the streets, alleys and sidewalks.

O fair dove, O fair dove of peace!

Russia is curious to know Japan's
terms. "Terms cash."

Togo named it the "Battle of the Sea

Dictator Trepoif is quite right; educa-
tion is the dynamo of revolution for hu-
man liberty.

Even the chief Wall street cotton bears
place the maximum yield this year at

would set up a republic.

The threat of the Japanese board of
strategy to send Togo to the Baltic is
enough to suddenly depopulate St. Pe-
tersburg.

The psychological moment for ending
the war is when the czar has no army
left in Manchuria to face the victory-
fueled Japs.

The Washington Times thinks Mee
Wood's press agent is not in it with
Senator Platt's able hush-up man. The
latter has the article that talks.

A Chicago contemporary warns its read-
ers that when it comes to stopping a
brickbat a straw hat hasn't half the
strength or resiliency of a good derby.

We can see where Admiral Bogodort
is wise in refusing to accept a parole
and return to Russia. The czar is said
to be exceedingly anxious to hang him.

Just as "The Pike" at the St. Louis
fair was suggestive of old Missouri, so
"The Trail" at the Portland exposition
is suggestive of western mountain and
plain.

Since the administration indulged Pas-
tor Wagner's simple life, Great Britain
has found it necessary to add \$4,000 to
the annual salary of Ambassador Durand.

When President Roosevelt penned his
regret at being compelled to accept Sec-
retary Morton's resignation, his innate
sense of humor must have guffawed in his
sleeve.

What President Roosevelt, in substance,
told Count Cassini was that Russia is
down and out in the war game. It
seems to have made an impression in St.
Petersburg.

Admiral Togo leads the simple life,

Japan has diplomatically hinted that
she will brook no interference from a
third power when it comes to settling the
terms of peace with Russia. It is a wise
power that takes the hint, and it is also
all wise about Japan than they were a
decade ago.

The Atlanta Constitution is a winning
platform now. Let it insist upon the
enforcement of the tariff law and
fill up the cotton patches with "the man

This is a platform that all Georgians
can stand on, regardless of their other
differences.

Commissioner General of Immigration
Sargent's plan to establish a bureau of
information at Ellis Island promises
much to those who are seriously handi-
capped by the lack of common labor in
the south, and southern congressmen
should get behind the proposition when
it is brought up in congress.

The Government's Cotton Figures.

Nobody familiar with the good
work he has done, in the interest
not only of the people of his own
district and state, but of the entire
south, will doubt the sincerity of Con-
gressman Burleson, of Texas; but
we cannot agree with his conclusion
that—

The agitation set on foot by the South-
ern Cotton Association is ill-timed and
calculated to result in harm to the farm-
er rather than in benefit, since the effect
of it is to create the impression that the
bureau estimates are bearish and to
force lower prices.

As Mr. Burleson analyzes the acre-
age cut shown by the department's
figures—taken in connection with the
well-known crop conditions—it
means a crop not to exceed 10,000,000
bales at the outside, and certainly
that should operate to the stimula-
tion of prices. It is not likely, in
the light of these facts, which must
be apparent to all operators, that any
bearing of the price which might
result from the charges brought
against the department's statisticians
would be more than temporary.

We do not regard such depression
in prices as at all certain to follow
the investigation called for; but even
if a temporary depression were cer-
tain, it would still be the duty of the
officers of the association, as it
would be of any citizen, to press any
charges of misconduct on the part
of government officials which they
can substantiate.

It is only fair to the officers of the
association to assume that they would
not charge the government's statisti-
cians with "leaking," or with any
other misconduct, unless they have
substantial evidence with which to
sustain the charge. We feel sure the
officers of the association have not
permitted themselves to be misled by
the mere gossip of the cotton specu-
lators. They must have real evidence
to prove their charges of misconduct,
else would they never have made
those charges.

And being fortified with the evi-
dence to sustain the charges, it was
their duty to present the charges and
press them before the secretary of ag-
riculture, even should such action re-
sult, as Mr. Burleson fears, in hear-
ing the market.

Secretary Wilson is quoted as ex-
pressing perfect confidence in his
bureau of statistics as it is con-
ducted by Statistician Hyde and his
subordinates. He refers to the inves-
tigations of the past which have re-
sulted in congressional and judicial
approval of the bureau and its meth-
ods of doing business. That is all
very good so far as it goes. The fact
that no misdeed has been found in
the past should, however, have no
weight in the face of positive evi-
dence of the character of the officers
of the association will, we assume, be
able to produce. The fact that noth-
ing has been found against any gov-
ernment official or set of government
officials in the past will be taken as
warrant for assumption on the part
of their friends that they have done
nothing improper; but mere assump-
tion will count for nothing in the
face of positive evidence to the con-
trary.

The absolute integrity of the gov-
ernment's statistics is of highest im-
portance to every farmer and pro-
ducer in the land. That these statis-
tics should be perfectly safeguarded
so as to prevent their falling into the
hands of the speculators, and thus
prove a factor in market manipulation,
is absolutely essential. Any official
who can be shown to have been guilty
of improper manipulation of the gov-
ernment's figures or of "leaking" for
the benefit of the speculators should
have his official head removed with-
out a moment's delay.

A Theatrical Career Cut Short.

It is a hopeful sign that Nan Pat-
terson's brief career as a theatrical
star has come to a humiliating end,
and it is to be hoped, permanent end.
Immediately after the notorious young
woman had been released from the
jail's custody, after the failure of
three successive juries to convict her
on a charge of murdering her param-
our, she closed a contract with an
adventurous theatrical manager
whereby she was to receive a salary
of \$1,000 a week for posing as "lead-
ing lady" in a cheap melodrama cut
to fit her mediocre histrionic mea-
sure. We have forgotten the name of
the play, but that was never material.

The whole show was Nan Patterson,
and it was expected that her name
would insure playing to standing
room only. The American people
have a reputation for going to see
the heroines of great criminal sensa-
tions behind the footlights, and Nan
was naturally expected to break the
record as an attraction for this mor-
bidly depraved public curiosity.

Probably the Nan Patterson show
made a fatal financial mistake in not
opening the day after Nan's release
in some music hall in the wicked met-
ropolis that had given the weak girl
and her alleged crime such a yellow
exploitation. Nan took a week or two
to recover her nerve before starting
on her triumphal tour of Pennsylvania
one-night stands, and in that time her
notoriety had toned down, or else the
provincial Pennsylvanians were not
of the impressionable kind. After a
week or ten days of nightly frosts,
the management was forced to realize
that its judgment of Nan's drawing
capacity had been sadly in error.

The young woman in the yellow star
role wouldn't draw at all. The halls
were comparatively empty and the
till under the box office window ditto.
Nan Patterson has released her
manager from his contract and re-
turned to her home in chagrin and
shame. To a reporter she said:

I'm awfully sorry that the people have

so severely criticized me for adopting a
course that to me seemed just and right.
I want to do the right thing, and can
see no harm in my going on the stage,
which I have followed as a means of
livelihood for several years.

I have no plans for the future. I am
going to my father's home in Washing-
ton, where I shall stay until I am com-
pletely rested. Of if people had only
been more kind to me, when things were
apparently so bright after my terrible
experience.

Why should the theatergoing public
be "kind" to Nan Patterson by pay-
ing the price of admission to see her
as an actress when she cannot act? Her
brief theatrical experience prior
to the closed cab tragedy was con-
fined to the chorus, and she never
had the making of an actress in her.
Her only claim upon the interest of
the public is that of the museum
freak—an appeal to morbid curiosity,
in this instance based upon the un-
savoury part she played in a rather
commonplace illicit affair that had a
murder as its termination.

The people of Pennsylvania, by re-
maining away from the Nan Pat-
terson show, made a decided contribu-
tion to the cause of public decency in
a rather unexpected quarter, for we
have grown used to this kind of de-
generacy in the theater. Let us hope
that the motive which kept them
away was the one it should be in the
interest of public morality and not
mere weariness of Nan and her over-
exploited scandal. That the wear-
iness exists everywhere in "the prov-
inces" is obvious enough.

Norway and Sweden Diverge.

European politicians have for many
years been prepared for the disunion
of Norway and Sweden, which has
just been precipitated by the Nor-
wegian storming in its declaration of
absolute independence of the other
nation. Whether the world will see
that rare spectacle, the bloodless
birth of a new state, is a matter for
speculation. Feeling between the il-
luminated countries has been gather-
ing bitterness with time, and Sweden
keenly resents the cavalier departure
of Norway.

Viewed superficially, however,
Sweden appears responsible for the
severance, unless the burden is laid
on the logical outgrowth of differing
political and commercial development,
and a radical absence of common
bonds between the two nations. Pre-
vious to 1814 Denmark held a
suzerainty over Norway which was,
in that year, transferred to Sweden
without consulting the Norwegian peo-
ple. The act of union placed the reins of government entire-
ly in the hands of the Swedish mon-
arch and his prime minister. Nor-
way, it is true, maintained her own
legislative bodies, and enjoyed a cer-
tain sort of autonomy; but her foreign
relations were inevitably bound up
with those of Sweden, and all foreign
policies colored by the Swedish view-
point.

Norway's attitude was at first pas-
sive. The foreign relations of the
country were at that time of trivial
importance and the energy of the peo-
ple was directed toward conditions
within their own borders. As time
passed the status altered materially.
Agricultural and topographical pecu-
liarities inclined Norway altogether
toward a free trade policy. Sweden's
interests, on the other hand, were
promoted by the fostering of a rigid
system of protection. In the face
of these radical differences Sweden con-
tinued to manage the foreign affairs
of both nations from her own view-
point. Each had the same consular
ministers, the same flag and, in the
eyes of international diplomats, Swed-
ish officials stood for the two nations,
Norwegian prestige being ignored.

Under such an unequal partnership,
it is not strange that Norway should
assume a rebellious attitude and put
forth efforts to secure a measure of
international independence. Natural-
ly these efforts took the form of mov-
ing toward a distinct consular serv-
ice, means of separate prime minis-
ter, and an entirely dissimilar foreign
policy—in other words, an independ-
ent consular service began in
1891 and reached a culmination in the
recent radical action of the Norwegian
parliament. From the very first, the
dominant influences in Swedish poli-
tics resolutely opposed the Norwegian
demand. Two or three joint commis-
sions were appointed to canvass the
subject, but each time the Swedish
representative was a failure. A confer-
ence was held, compromise followed
compromise, but the Norwegians
were never fully assured that they
would be granted, unequivocal-
ly, their demand—Independent consu-
lar representation. A history of the
futile attempts to reach a mutually
satisfactory rapprochement would fill
many columns of space.

The Norwegians finally came to the
conclusion that the reforms they
craved would never be obtained under
the authority of Sweden. This led
naturally to a focus with the recent
veto of the independent consular bill
by King Oscar—the act which nomi-
nally provoked the flat-footed with-
drawal of Norway.

Were the Norwegians a different
people or the traditions of the two
nations of a greater similarity, an
amicable adjustment would have been
possible despite differing interests.
But the Norwegians have inherited
the spirit of their Viking ancestors—
handled them down legends which
are precious; in their veins runs that
passionate love of freedom, the natu-
ral legacy of such virile forebears.
At bottom, this is the spirit which
moves for independence and which
declares that Norway's great sea trade
shall not be stunted by the unsympa-
thetic administration of Sweden.

An abiding respect for King Oscar,
the ideal descendant of Napoleon's
great marshal, Bernadotte, is about
the only palpable link between the
two countries. It is shown in the fact
that in the throes of a new national
birth, Norway turns to the king's
house for its first independent ruler.
This sentiment and the predominant
common sense of the two powers are
counted on to avert a clash.

Whether they will be able to tri-
umph over the faction that views
Sweden's repudiation as a national
affront is the issue now agitating the
diplomats.

"JUST FROM GEORGIA."

Back to the Old Home

I.
'Twas good to git back home ag'in—to
see the boys once more
Out there, a-pickin' checkers, by the old-
time grocery store.
Just like us in the old days—neath the
chinyberry tree:

"Seven up" on the old pine box, an'
deal a hand fer me!
At first, they didn't know me—fer Time
had slipped away.
An' I come back with a beaver-hat, an'
hair a little gray;
But someh'w' in my voice brought back
the days that used to be.
When I hollered: "If it's 'seven up',
jest deal a hand fer me!"

III.
"Doc" Brown ris up an' shouted: "It's
him—'u' him, fer shore!"
An' "Burt"—he left a customer thar,
in the grocery store;
An' others come aroun' me, an' eyed
me up an' down:
"It's checkers, an' it's 'seven up' that
brought him back to town!"

IV.
An' I said: "You shore have hit it—
But another word I'll say:
I heard the birds a-singin' sweet from
far an' far away:
The stream that turns the old mill-wheel
was always callin' me
To the shadows o' the meadows—to the
friendly fields of Lee!"

V.
"No city's voice could grow the dreams
of meadow, field an' plain—
The whisper o' the south-wind, the tink-
le o' the rain:
The slinger o' the mockin'birds—the
murmur o' the streams—
Why, I even heard the corn blades
a-rustlin' in my dreams!"

VI.
"An' the old-time feelin' got me, an' I
heard the meadows say:
The daisies are on dress parade: 'Come
back—come back this way!'
So I left the city's thunder in the peace-
ful vales to roam—
The bells, an' birds, an' sweet heart-
words—they timed my footsteps
Home!"

VII.
That was my explanation: they wuz
glad as glad could be:
They made room at the old pine box,
an' dealt a hand to me!
An' sich a lively game it wuz—an' this
here I will say,
If ever Hearts wuz trumps in life, they
shore wuz trumps that day!

His Time Coming.
"What he a-sayin' now," asked the
old lady, at the college commencement.
"He's a-makin' of a speech in Greek,
I reckon," replied the old man.
"An't he never goin' to talk none in
dialect?"

"Not till he gits home, an' pulls off
that Greek swallow-tail, an' I hitch him
to the plow handles, behind the old-fash-
ioned mule!"

Kipling as Critic.
Here is Rudyard Kipling's advice to an
author who submitted a story for his
criticism:

"Tear out second chapter and scatter
broadsheet. Change name of hero, and
name of story; then, get down to busi-
ness and rewrite the whole thing!"

The Battle for Bread.

I.
Tired out—and the soul's despair
From dreary task to dawn:
Tired out—but the toll is there,
And the battle for bread is on!

II.
Rest—release—and the soul's deep peace
Will come when life is gone
And the strife is o'er, and the thunders
cease—
The battle for bread is on!

Some Georgia Sayings.
There isn't so much in climbing high
as in keeping from rolling down when
you get there.

Joy always has a saddle under his
arm, and tempts even sorrow to take a
whirl in the dance.

If it wasn't for the thought that
the rich have troubles of their own, the
poor man would have no consolation at
all.

Work and Talk.
De Thunder always growlin'—
"Gee, one mo' cloud ter climb!"
De Lightning don't say nuttin',
But he git dar ever time!

So, listen now, believers,
Kn hear dis sayin' true:
De less you talks about it,
De mo' you gwine ter do!

The Story of Life.
"Folks dese days don't live as long as
what dey use ter."
"No, bless God! De mos' er dem is
lucky ef dey lives 'twal dey dies!"

A northern publisher of "poetry books"
announces that "poetry is doomed." A
good deal of the stuff labeled "Poetry"
ought to be.

Trouble.
Trouble, like a whirlwind,
Cometh to destroy.
But we'll set the whirlwind dancing
To a rarin' tune of Joy!

There's a song even in the storms of
life; but—Lord send us peace and fair
weather!

CONDUCTOR MATTHEWS DISE.

Sustained Injuries Falling from Lo-
comotive.

Tallapoosa, Ga., June 8.—(Special.)—
Kay Matthews, conductor of one of the
locals on this division of the South-
ern railway, died yesterday in the hos-
pital at Birmingham, Ala., whither he
was taken the day before, after having
fallen from the tender of his train at
Fruitridge, Ala., to miles west of this
city, injured most seriously.
His widow in Atlanta survives him.

RAILWAY NOTES.

From present prospect the party of At-
lantians with Vice President Benrose
Jackson as major domo, will bring the
next convention of the National Associa-
tion of Traveling Freight Agents to At-
lanta. This party will leave for the
convention at Buffalo Sunday in the
special Pullman sleeper. This will
give them plenty of time to reach New
York city for the opening of the conven-
tion June 13. An invitation has been re-
ceived from the Transportation Club of
Cleveland asking that the trip be so ar-
ranged as to be the guests of that organi-
zation at the convention at Buffalo Monday.
This invitation, which has been received
from Secretary H. B. Rogers, will be
acted on later. The Cleveland railroad
men have a reputation all their own and
it is quite possible that their invitation
will be accepted and also the matter of
securing their support in the bringing of
the next convention to Atlanta.

Among those who have already made
arrangements for attending the Buffalo
convention in Atlanta's interests are the
following: Benrose Jackson, general agent
Monon Route; wife and Miss Annie A.
Speer; H. C. Bagley, general agent Penn
Mutual Life Insurance Company and
councilman eighth ward, and wife; S.
D. Jones, president Atlanta stove works,
and wife; H. D. Ray, commercial agent
Merchants and Miners' Transportation
Company; J. D. Carter, Jr., traveling
freight agent Santa Fe Route, and sig-
ner, Miss Margaret Carter; Howell Pea-
bles, commercial agent Southern rail-
way; H. M. Ray, agent commercial agent
Seaboard Dispatch, Rochester, N. Y.; D.
J. Mulaney, commercial agent Nashville,
Chattanooga and St. Louis railway, Cin-
cinnati, Ohio.

The work of construction has been
started in the making of excavations for
the supports for the new city ticket of-
fice of the Nashville, Chattanooga and
St. Louis railway. The new office will be
supported by steel beams from the track
level below the Whitehall viaduct, at a
height sufficient to make the entrance to
these new city offices from that bridge.
Railroad men say that with the White-
hall viaduct the acknowledged center of
the new transportation row, the Nash-
ville, Chattanooga and St. Louis officials
have solved the problem that is pretty
certain to be a vexing one for the rail-
road men for the demand for city offices on
Whitehall has come with a tremendous
rush during the last few months. Just
at present it looks as though the new
city office of the Nashville, Chattanooga
and St. Louis will have the appear-
ance of being erected on stilts, but as
this will in no way interfere with its
being directly in the line of travel across
this concourse, this effect will not count
in the way of a defect. The construc-
tion of this new office is being watch-
ed with more than ordinary interest by
the citizens of the Atlanta railroad
world.

The exporting of peaches to the north
is gaining ground every day, yesterday
being credited with five cars of peaches
shipped north to New York. The first
car which arrived a few days ago
came rather sooner than was expected,
and the chances are now that in a
week or two the exportation will know
many cars exported from Georgia. The
first car was routed from the Port
Valley district, over the Central, South-
ern and Pennsylvania to New York,
and reports were received that the car
reached its destination in the best con-
dition possible. Reports were also re-
ceived that the peaches were far in
advance of the first shipment
of last year, and brought a much
better price. All of the fruit is reported
as being far better than that of last year,
and with better prices. The fruit grow-
ers are expected to get a good return
bringing the total for the season close
to the figures of last year. Every season
finds the Georgia peaches in greater
demand in the west, Chicago and Kan-
sas City showing a continuous increase
last year. The demand from this sec-
tion is for still more peaches from
Georgia this year, and it is generally be-
lieved that this will help much in mak-
ing the price better for the Georgia
grower.

Hon. Joe Hill Hall, the well-known
statesman of Bibb, is out in a hot car,
in which he warns all genuine reformers
that the reform movement of Hon. Hoke
Smith is of entirely too recent origin to
be trusted as the genuine article, and
tells them to reserve their support for a
candidate who will be forthcoming in due
time.

Mr. Hall also recalls the fact that
he was seeking to place a tax upon
foreign corporations doing business in
this state—an act especially aimed at the
Southern railway, the octopus that is
said to dominate Georgia's affairs and
against which all of the ammunition of
Hon. Hoke Smith and the Atlanta Jour-
nal is now aimed. The Journal printed
an unusually bitter editorial in opposition
to the measure; and he now calls upon
The Journal to reproduce that editorial.

Mr. Hall may be something of a demag-
ogue himself—a suspicion that occasion-
ally recurs to us in spite of self-re-
proaches at our lack of faith—but if he
has been rather a consistent one during
his public life, and his scorn at those
who would steal his snobishness and
grab themselves in an act of virtue
just for the sudden occasion only is
natural and justifiable. The cry of reform
for the sake of office will always catch
a very respectable class of voters, but it
is such an old gag that should be
handled discreetly and tenderly lest it
becomes worn out and attenuated before
the campaign is over.

Mr. Hall is entitled to the thanks of
the public for this exposition and diver-
sion.

NEW ENTERPRISES ARE UNDER WAY

Development of Manufactures
Here Greater Than Ever.

Big Concerns Are Increasing Their
Facilities and New Ones Are
Coming to Atlanta on Ac-
count of the Many Ad-
vantages Offered.

According to all those in a position to know, the preparations now under way for a Greater Atlanta are beyond those of any other early summer in the history of the city. The following facts which were given by those in a position to know contain plenty of interest to every Atlanta, and there are others still un-
der way which any premature publica-
tion might work to the detriment of the proposed enlargement.

Then, too, it must be remembered that practically every manufacturer and tradesman has made arrangements for the securing of more help in the fall if this addition to the present force has not already been added. Following are some of the many improvements contemplated or rather now under way for the con-
templation period has given way to that of preparation and the making of all the needed arrangements.

The Atlanta Agricultural Works, C. J. King, president, has made arrangements for the removal of their present plant from Marietta street. A new site near the exposition mills has already been purchased and it is the intention of the company to build a large up-to-date factory employing a much larger force of employees than at present. This big move has been demanded by the tremendous increase in the business which now finds the Atlanta concern supplying agricultural implements to all parts of the country. The orders from all sections in the south during the past spring have been so large that the enlarging of the equipment was nothing short of a necessity. It is expected that the fall trade will find the new factory in readiness for supplying the trade with added facilities sufficient to keep abreast of the great increase in the orders.

A new concern, the Piedmont Box Company, have recently opened a big factory on East Hunter street equipped with all of the latest machinery for the making of paper boxes in all shapes and sizes. This industry is one that has grown very rapidly of late and was undoubtedly brought about by the increase in other Atlanta factories manufacturing goods requiring boxes. A New Yorker is at the head of this enterprise, and it was not until he had made a careful survey of the city that he decided to make an investment sufficiently large to warrant the employment of many employees.

One of the largest concerns is that of a new chemical plant of the N. P. Pratt laboratory. It is generally believed that this new plant will be located in Kirkwood and will employ a large force of men at wages which on account of the knowledge required will be top notch. The demands which have been made on this Atlanta establishment for the last few years have been growing at a wonderful rate and for a long time it has been generally conceded that even with the many improvements that have been made the demand has grown beyond the present limits and a new factory necessitated.

Among those who ought to know, it is generally believed that this new plant will be erected in Kirkwood, while the general offices will of course still remain in Atlanta. It is also stated that the new plant will not in any way affect the present establishment on Auburn avenue.

Excavations have been made and the actual work of construction will begin immediately in the building of a large ware house directly in the rear of the present sales rooms of the R. M. Rose Company, distillers, 79 and 81 Peachtree street. This ware house, which will be one of the largest in the south, will be connected with the present sales rooms. This, like other improvements and enlargements, has been for no other reason than to meet the actual present demands in the growth of a business nothing short of phenomenal.

John D. Wing, for so long a time manager of the candy and cracker factory of the P. E. Block Company, together with some of his associates, are reported as having already bought a well-located property in Atlanta for the erection of a candy and cracker plant. This site having been purchased, it is expected that the work will be pushed rapidly forward and the manufacturing of candy and crackers will be a reality of the near future.

New York parties have completed arrangements for the establishment of a new skirt and costume factory to be located at 934 Peters street. This factory, it is claimed, will start business with a force of some twenty-five hands with the expectations of doubling and tripling this number in a short time. The parties interested spent some time in Atlanta canvassing before determining to locate in this city. Work is now under way with the prospect of opening business in a very short time.

W. R. Ware and a number of associates have formed a company and are now erecting a brick building on Means street to be used as a factory for the manufacturing of iron and brass beds. This company has been organized with a capitalization that insures the engaging of a large number of workmen with the completion of the factory which is expected to be a matter of a few weeks.

WANTS TO CAMP IN CAROLINA

Governor Terrell Hears Delegation in Behalf of Third Regiment of Infantry.

Colonel A. H. DeVaughn, Hon. Clem Dunbar and Colonel Sandy Cohen constituted an Augusta delegation which called on Governor Terrell yesterday with a view to urging him to relax his recent ruling with regard to refusing permission for the Georgia troops to go outside the state for the purpose of holding an encampment.

The Third regiment of Infantry is quite anxious to go to the Isle of Palms, off Charleston, S. C., for a week's encampment next month, and it is understood some considerable inducements have been offered them to hold their encampment there. A short time ago, however, the governor announced it as the policy of the administration to refuse permission to the troops to go outside the state for this or any other purpose except to attend war maneuvers under the auspices of the United States war department. The announcement of this policy was made in the case of the Lincoln Guards, of Macon, a negro company, which wanted to attend the inauguration of President Roosevelt, but this was not the reason that prompted it. It seems that when Georgia troops have left the state heretofore there has always been some sort of lawlessness or serious mischief which the adjutant general's department has had a time in straightening out, and it was on this account more than anything else that the governor decided to keep the troops within the state.

The Augusta delegation, however, put up a strong argument, and finally the governor decided to leave the matter with Adjutant General S. W. Harris. The delegation held a conference with him and General Harris promised to give the matter careful consideration. It is expected a decision in the matter will be reached within a day or two, and the Augusta delegation has strong hopes that it will be favorable to the wishes of the regiment.

NAME COUNTY JEFF DAVIS.

Hon. B. M. Blackburn Urges That This Name Be Chosen for One of the New Counties.

Hon. B. M. Blackburn, of the executive office, who delivered the address on the anniversary of Jefferson Davis' birthday in Atlanta, has endorsed another movement, namely, the naming of one of the new counties after him. He said yesterday: "Georgia was the first state in the south to make June 3 a legal holiday. Let Georgia continue to lead in movements to erect enduring monuments of love to the distinguished leader of the south, by naming one of the new counties Jeff Davis."

Mr. Blackburn gave his enthusiastic cooperation to Mr. Shadden, who organized the movement to set aside the 3d day of June as a legal holiday, and to camp 129, United Confederate Veterans of Atlanta, that adopted his resolution, since he had long advocated this recognition of the president of the confederacy, in his editorials. He is now very much interested in seeing one of the new counties bear this immortal name.

The Kind You Have Always Bought

It is also announced that the Swift company has already purchased the Piedmont Oil and Refining Company, with the intention of quadrupling the present force and the addition of buildings made necessary by this increase. With the purchase of the "Old Glory Soap" plant, they intend to manufacture and advertise a soap which will become a household word in the very near future. With the name and facilities back of the Swift company for handling this new soap, there is no question about the certain success of this movement.

When the convention of the Georgia Industrial Association met in Atlanta some weeks ago, the matter of establishing big ware houses for the supplying of machinery used in Georgia and other southern cotton mills was agitated. The establishment of big ware houses from which the southern mills could order direct would mean the saving of a great deal. On the heels of this discussion comes the report that the Draper mills, of Hopedale, Mass., one of the largest cotton mill machinery concerns of the country, will open a southern ware house in Atlanta.

By way of confirming this report, it is stated that the ware houses have already been leased with the view of immediately commencing the work of erecting big ware houses for the supply of machinery used in cotton mills, so that any order can be filled immediately in Atlanta and shipped direct. It is also stated that, while ware houses have been secured, new and larger ware houses will be built as rapidly as possible so that the southern concern will be as ready to supply any need as the Massachusetts mill. This is generally conceded to be one of the greatest steps in local history, illustrating so practically the fact that the Massachusetts manufacturers are coming south in the hopes of still holding their trade and preventing southern capitalists from building mills for the supplying of machinery used in cotton mills, which, for so long a time, has been the important trade of New England. The new ware houses are expected to require a large force of men.

Still another new factory site has been purchased on Jones avenue, where Hirsch & Spitz will very soon erect a large building to meet the demands made upon them as manufacturers of beds and bed springs.

It is expected that this factory will be one of the very best equipped to be found in the south, and with its completion will, of course, call for a great increase in the number of the hands engaged. For the same reason, the Hauchin Manufacturing Company is reported as making arrangements for the removal from Garnett street to South Forsyth. This removal is made for the purpose of greatly enlarging the present plant and like all of the others because demanded by an increase in business such as leaves no other alternative than the tearing down of the old barns which have served their time and the building of new ones with equipment and accessories such as will make possible the keeping abreast of the tremendous growth which has been an important and integral part in the great prosperity of this entire section of the country.

PASSENGER FARE IS NOT CHANGED

Railroad Commission Refuses to Reduce It to Two Cents.

Order is Signed by Commissioners Hill and Joseph M. Brown, Chairman J. P. Brown Dissenting—Marble Rate Allowed to Stand.

Three cents a mile will continue to be the railroad passenger fare in Georgia for the present at least.

The railroad commission yesterday passed an order declining to grant the motion of Chairman J. Pope Brown for a reduction to 2 cents a mile.

The order, which is a very brief one, is as follows:

"Atlanta, Ga., June 8, 1905.—In re motion to reduce passenger rate: Upon consideration of this question by the commission this day, and after having heard evidence submitted and arguments made, the board is of the opinion that no change should be made in the passenger rates at the present time."

The order is signed by H. W. Hill and Joseph M. Brown, J. P. Brown dissenting. Chairman Brown expressed some surprise at the action of the two other commissioners, and asked that the opinions which they had prepared giving their reasons for this action, be withheld until he could have opportunity to prepare his dissenting opinion so that it might be published at the same time. Commissioners Hill and Brown readily assented to this course. It will be several days, therefore, before the opinions in the passenger rate case are made public.

When asked as to the ground upon which the commission based its decision, Commissioner Joseph M. Brown replied that the commissioners did not consider that a sufficient showing had been made to justify any reduction in the passenger fare at this time.

Marble Rate Unchanged.

There was a rehearing in the marble rate case before the railroad commission yesterday, with the result that the commission decided to permanently suspend circular 303, and the marble rates on the Atlanta, Knoxville and Northern branch of the Louisville and Nashville will remain as they have stood for some years past.

Some years ago, when the Atlanta, Knoxville and Northern was a struggling independent line, it was given permission to increase the marble rate, which was under class P 25 per cent. When the Louisville and Nashville secured control of the Atlanta, Knoxville and Northern the commission, on petition of the marble men owning and operating quarries that line, issued circular 303, taking off the 25 per cent and leaving marble simply under class P.

The Louisville and Nashville asked for a rehearing, which was granted, the result of which was a suspension of the circular because of the fact that the Atlanta, Knoxville and Northern never has been and is not now a paying line, the expenses of operation in the hilly country being quite heavy.

The marble men asked for a rehearing, claiming that if the road was not paying, all freight should be made to bear alike the burden of additional charges, and that the marble industry should not be singled out for this purpose.

The rehearing was had yesterday. Hon. Spencer R. Atkinson, former railroad commissioner, appearing for the marble men and Hon. Alex. King, of Atlanta, and General Freight Agent C. D. Boyd for the Louisville and Nashville.

Shortly after the conclusion of the hearing the commission decided to make its order suspending circular 303 permanent, and leaving the marble rates on the Atlanta, Knoxville and Northern as it has stood for some years.

Plans for a new depot at Valdosta were submitted to the commission, and are now under consideration.

Hon. N. A. Morris, of Marietta, appeared before the commission and made an argument in behalf of the people of Blackwells, who want a new depot.

LOAN CASES ARE HEARD

Prospects Are Special Master Rucker Will be Engaged Several Days.

The adjourned hearing in the building and loan cases was heard yesterday before Special Master Rucker. At the morning session evidence was introduced, and about noon an adjournment until 4 o'clock in the afternoon was taken. From the present prospects the hearing will require several days. It will be remembered that in the order of Judge Newman, Special Master Rucker is to probe the case to its foundation before making his report.

The Atlanta National and the Southern Home are the building and loan cases involved, and the questions considered are regarding the legality certain sales by receivers of the companies. These sales were made to the National Finance Company, and it is in regard to these sales that evidence is now being introduced before the special master appointed for the purpose. Many of Atlanta's prominent lawyers are interested in the case. For the plaintiffs are Felder & Rountree, Arnold & Arnold and W. P. Hill, and for the various defendants, Slaton & Phillips, Kings, Spalding & Little, Ellis & Ellis and Winslow & Russell, of New York.

Street Car Tied Up by Strikers.

Saginaw, Mich., June 8.—Following the violence which yesterday marked the fourth day of the street railway employees' strike in the Saginaw Valley, the railway company made no effort to run cars today, either here or in Bay City. There was no renewal of the excitement in either city today.

GEORGIA BANKERS NOW IN FLORIDA

More Than One Hundred Go
From This State.

Joint Convention of Georgia and Florida Bankers' Association Meets at Atlantic Beach—Secretary Shaw is Guest of Honor.

Atlantic Beach, Fla., June 8.—Coming to attend the joint convention of the Georgia and Florida Bankers' Association, there arrived here this morning over one hundred bankers from Georgia and fifty from Florida. As the guests of honor, Secretary of the Treasury Leslie M. Shaw arrived this morning at 10 o'clock with a number of Atlanta bankers. Shaw and party came through last night from Atlanta in a special Pullman. Secretary Shaw insisted on coming through and the Pullman was attached to the regular train to this point.

Cutter Met Secretary. The secretary had ordered a revenue cutter to meet him here and she is now off Mayport. He went on board this afternoon and proceeded to Jacksonville, where he will remain until the 11th inst. He will return to Atlantic Beach after the board of true reception.

The Florida and Georgia Bankers' Association will have separate business sessions tomorrow morning and in the afternoon will meet jointly, when they will be addressed by Secretary Shaw, W. O. Jones, assistant cashier of the National Park bank, of New York, will also address the joint meeting.

BANKERS LEAVE FOR FLORIDA.

Atlanta Sends Representative Delegation to Atlantic Beach Convention.

A number of the representative bankers of Atlanta made up a congenial party in a special sleeper which left over the Southern railway to attend the convention of the Georgia and Florida bankers, which meets at Atlantic Beach this year. It is expected that the attendance at the convention this year will be exceptionally large, as there has been the greatest interest evidenced on all sides. Then, too, Secretary of the United States Treasury Shaw is to make the address of the convention and it is expected that this message will be an important one bearing directly on conditions in the south.

Moreover it is known that Secretary Shaw has the most friendly feeling for the south and again and again has proved his interest in a most practical way. Besides he has kept in the closest touch with all of the conditions in this section of the country and has a very wide personal acquaintance with bankers in all parts of Dixieland.

In the party leaving over the Southern, Secretary Shaw was a member, having stopped over for half a day with his friend, Colonel Robert J. Lowry, of the Lowry national bank. The secretary has made a number of visits to Atlanta, on which occasions he has met many representative Atlantians, and all of these have been greatly charmed both on account of his charming personality and his enthusiastic admiration for the push and enterprise of this city. For this reason the Atlanta delegation felt particularly honored in having the privilege of being the personal escort for the distinguished visitor to the south.

Among the Atlantians included in the party were Robert F. Maddox and Mrs. Maddox, J. T. Otley and Mrs. Otley, Joseph Orme, Mrs. Orme and child; T. Edwin, Marion Jackson, Miss Isma Dooley, J. T. Nell and the following Georgians: S. O. Felder and Mrs. Felder, Villa Rica; E. T. Ethridge and Mrs. Ethridge, of Jackson; E. B. Walker, of Monroe, and R. L. Corruthers, of Winndor.

NEW GERMAN WEEKLY PAPER.

Max Oppenheim Will Publish the New Paper in Atlanta Every Saturday.

Atlanta is to have another German paper. On tomorrow for the first time will be published The Georgia Deutsche Zeitung, and the first issue will be most notable one.

The weekly is owned and will be edited by Max Oppenheim, who comes to Atlanta from Birmingham, Ala., in which city he owns a paper of a similar nature. The new German paper will be published purely in the interests of the Germans who live in Atlanta and in Georgia. It will be issued every Saturday.

That this new venture in the field of Georgia journalism will meet with signal success, there is every indication.

ARSON CHARGED TO CAREY WOOD

Fulton Grand Jury Returns Indictment Against Wood.

Special Plea of Lunacy May Be Entered When Case is Called in Judge Roan's Court Next Week—New Law in Effect.

Carey Wood, well known not only in Atlanta, but extensively acquainted commercially in the south, is no longer an occupant of a cell in the Fulton county jail as a suspect, but is now being held on the defined charge of arson—that charge having been made in a true bill by the Fulton county grand jury during its session yesterday morning.

And in the county jail Wood will remain a prisoner among the hundred and more violators of the statutes of the commonwealth of Georgia until next week, when he will be brought before Judge Roan of the Fulton criminal superior court for trial, the offense for which he is held not being bailable.

By the new law of the criminal code an accused party cannot be given the benefit of the lunacy writ process before he is arraigned for trial on the charge on which he is indicted. As the law now reads the accused must be taken before the grand jury of the criminal court to enter a plea to the criminal charge, in this case to arson. It is then that the attorney for the defendant enters a special plea when the prisoner is arraigned. Upon that special plea the claim of lunacy is set up and then the judge who was to have heard the trial of the criminal charge must convert his court into a court of inquiry as to the sanity of the prisoner. Should the defendant be found of unsound mind, the judge would issue an order for his removal to the state asylum, at the same time directing the keeper of the asylum to hold the subject in custody upon his recovery. If a return to sane conditions resulted, for a surrender to the court's officers so that he might be brought back for a trial upon the original warrant. However, should the prisoner be found sane by the jury, the trial of the charge contained in the indictment would follow at once.

These are the conditions now surrounding Carey Wood, and which he will be called to confront when the Fulton superior court, Judge Roan presiding, convenes next week.

The punishment for arson under the old law, an enactment of 1860, was death, whether the arson was accompanied by death or not. By the new law, section 6744, made in 1899, the punishment for "willful and malicious burning or setting fire to, or attempting to burn a house in a city, town or village or on a plantation which is occupied, shall be imprisonment at labor for a term of not less than five years or more than twenty years."

The act stipulates further that in event a life is lost or an occupant of the building is maimed, the punishment shall be death.

TRYING TO STOP CHINA BOYCOTT

Spalding to Represent Georgia Mill Interests in Appeal to President.

Hon. J. J. Spalding, of Atlanta, who has been designated by President F. B. Gordon, of the Georgia Industrial Association, to go to Washington to join representatives from other states in urging the president to take steps to counteract the effect of the Chinese exclusion act, will leave the city Saturday, the date of meeting having been changed from Friday to Monday next, June 12.

The representatives of the cotton mill interests in all parts of the country will meet in Washington at 10 o'clock on Monday discuss the situation, and call on the president at noon.

The threat of the Chinese to boycott American made goods because of the treatment of their countrymen in the United States has aroused the manufacturing interests of the entire country. The United States have sold \$18,000,000 worth of cotton goods in China during the nine months ending March 31, and it is estimated that the total amount for the fiscal year ending July 1 will be about \$25,000,000. Naturally the American mills are not a little alarmed at the proposed action of the Chinese, and they are anxious to take steps to counteract the effect of such a movement.

The milling interests believe that some steps can be taken by the president at once to modify or mitigate the operations of the Chinese exclusion law which will check this movement in China against American goods.

ANTI CIGARETTE LAW GOES.

It Is Held To Be Constitutional by Indiana Judge.

Indianapolis, Ind., June 8.—Judge James Leathers, of the Marion county superior court, today decided in the case of the state against W. W. Lowry, indicted for smoking a cigarette, that the anti-cigarette law passed by the last legislature is constitutional, even wherein it may conflict with the interstate commerce law. Smokers may import cigarettes from other states and smoke them, but it is held unlawful to sell or give them away. Mr. Lowry is discharged. The state will take an appeal.

TO SHINE GOVERNOR'S SHOES.

"Frisco Kid" Will Call This Morning at the Executive Office for That Purpose.

Fred Rack, otherwise known as "Frisco Kid," who is touring the country and the world, shining the shoes of governors, mayors and other notables, has made an engagement to shine Governor Terrell's shoes tomorrow morning. He will also perform the same operation on Mayor Woodward, and from both he expects to get letters to add to his numerous collection which now includes letters from many mayors and from many governors of all the states in the union except Georgia and the Carolinas.

Rack, whose home is in San Francisco, is only 18 years old, but has seen more of the country than ninety-nine of the grown people. He came here from Montgomery, Ala., where he secured a letter from Governor Jinks, and after a few days expects to go on to Columbia, S. C., via Augusta, Ga. The Kid has never drank, smoked, or chewed and the roving spirit seems to constitute his only habit. He proposes to reach New York about July 1 from where he says he will sail for England with a view to putting a first-class polish on the shoes of King Edward and later upon the boots of the head of the house of Hohenzollern.

The boy has made his way without asking alms anywhere. He has in his possession a remarkable list of letters from governors and mayors, all with official seals, including also one from President Roosevelt, whose shoes he recently shined after making an engagement one day in advance.

Rack has struck some competition here in the person of an attractive young woman calling herself "Miss Ella," who is shining the shoes of the city's notables for the purpose of creating a market for the shoe polish she is selling.

Entire Building—Six Floors and Basement.

Do your shoes pinch? Then you are indeed unhappy. But pain from poorly-fitting shoes is preventable trouble. Recent science has done much for the human foot in the making of humane Shoes.

If you suffer from improperly-shaped Shoes the fault is perhaps your own.

Common sense, in the brood and not technical sense, anatomical accuracy, govern every thoroughly modern Shoestock, and pre-eminently OUR stock.

This is constantly more true. And that is the inspiration of the great forward Shoe movement here.

Science in Shoes. Economy in Shoes. No trash in Shoes.

ELIZABETH COLLEGE CATALOGUE.
The new catalogue of Elizabeth College and Conservatory of Music, Charlotte, N. C., has an attractive appearance. The cover design is especially striking and on looking within one finds twenty artistic views of the interior and exterior of the buildings and of the grounds. Besides these there are sixty pages of reading matter, setting forth the entrance requirements, etc., in the literary course, the music, art and expression departments. The catalogue shows a faculty of twenty-three professors. The entrance requirements are about the same as those required by the National Educational Association. The elective system begins with the Junior year. The enrollment shows students from thirteen states.

PARK CONCERTS
START SUNDAY

Contract Is Made With Wedemeyer's Fifth Regiment Band.

Three Concerts Will Be Given Every Week During the Summer on Sunday Afternoon and on Tuesday and Thursday Nights.

The first of the series of concerts that will be given at Grant park this summer will occur next Sunday afternoon. A temporary contract has been closed with Wedemeyer's Fifth regiment band, which has furnished the music at the park during former years.

President Walter R. Brown, of the park board, who has been very anxious to begin the concerts, yesterday informed Professor Fred Wedemeyer that he would be expected to give the first concert of the season next Sunday.

Three concerts will be given every week, on Sunday afternoon at 3:30 o'clock and on Tuesday and Thursday nights at 8 o'clock.

At present the park board has on hand only \$600 for music, and it was given by the park concessionaire, Word Brothers. As each concert costs \$40, the \$600 will pay for fifteen concerts, which will be played in three weeks.

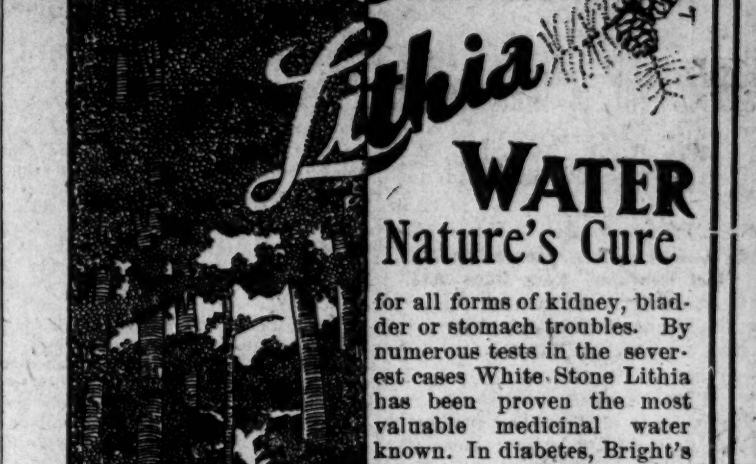

A communication from President Brown asking that money be supplied for music was read during the session of council last Monday afternoon and was referred to the finance committee, of which Councilman Patterson is chairman. A resolution providing for an appropriation for music was also referred to the finance committee.

It is entirely probable that at the end of five weeks, after the first fifteen concerts have been played, the city will be able to supply the money for the additional twenty-five concerts that will be necessary in order to give the people the number of concerts to which they have been accustomed.

The fact that there is to be music at Grant park this summer will be learned with much gratification by the thousands who have in former years enjoyed the evenings in the city's beautiful playground. When the constitution first began the agitation of the music question for the people three weeks ago it was evident that there would be no music unless something could be done at once. The park board and the members of the general council gave their aid to the movement and as a result the summer concerts will again be heard at Grant park.

Games Played Today.

Shreveport in Atlanta.
New Orleans in Montgomery.
Little Rock in Nashville.
Memphis in Birmingham.

A timely hit from an unexpected source brought in two runs yesterday afternoon for the homers, and another opportune crack from another source, this time an expected one, broke the tie and gave the first game of the series with the Shreveporters to Atlanta.

Score: Atlanta 3; Shreveport 2.

Once more through victory of yesterday's victory the Firecrackers are above the 500 mark and are steadily climbing into the list of the big four.

The unexpected hit came from Shea in the second inning. With two men on bases, Jordan, through a two-base crack, and Krug on second by a most timely error by shortstop Evans in dropping a pop fly, Shea came to the bat and with two out drove the ball over the head of Tom Fisher in right field, scoring two runs.

Shreveport tied this score by making two runs in the third inning. They came about as a result of a pass to Graffius, a safe hit by Evans to left, a fly out to center and a timely double smash by old man Welkart, sending one run in. Then Moren passed Hanley and Gilks, forcing in one run.

The score was untied in the sixth inning. Jordan and Bob Stafford drove the work. Jordan led off with a snapper to left field for one bag, and Heinle followed with a teaser to third, on which he failed to make first, allowing Jordan to pass to second base. Bob Stafford was called upon for a hit and responded with a slashing double to left field, which went over the head of Hanley, who was playing in deep left for just such an emergency. Jordan scored.

The game was a fast and snappy one, the best of its sort since the home team came to Atlanta, as the hits were made counted and slow work on the bases was less noticeable.

Shreveport is badly crippled and their line-up yesterday was hardly calculated to win out in a championship battle.

Pirates Are Crippled.

Owing to the broken figure of Hess and Smith's poor condition a change in the line-up was absolutely necessary. So Welkart was left at first base, Evans, regular second baseman, was shifted from second to short; Fritz, catcher, was put at second base; Kennedy, an outfielder, went to first base; Tom Fisher, a pitcher, took an outfield berth in right; and Gilks, manager of the team, went to

center, and Hanley had a chance in left field.

Gilks is rather sore that while he has cut down to the limit of the league, fourteen men, Atlanta, Memphis and other teams have seen fit to stay over the limit.

The truth of the matter is that Atlanta has the right to fifteen men at least, as Jordan, second baseman, is also manager of the club.

If needed, Atlanta could cut down to three outfielders, four infielders, two catchers, one substitute and five pitchers, and five would be about enough for this team.

Moren was in the box yesterday against Bartley, of Shreveport. Moren was in trouble a large part of the time, as there were men on bases and the kid was ap-
parently not in the best of shape. But when the necessity for pitching came, he was there with the goods and retired the side, jangling men on bases, thus avenging himself for his defeat in Shreveport.

Bartley was in good shape and pitched a nice game, but was hampered by several errors made by his team. One of them, that of Evans in dropping a pop fly in the second, indirectly resulted in two runs for Atlanta, as the side would have been retired had Evans done his job.

Gilks stated yesterday after the game that he did not know who he would pitch today. Swann or Breitenstein will probably do the honors, however. The box score follows:

YALE CREW IN FINE TRIM.

Coach Kennedy Was Greatly Pleased by the Work of His Crew Yesterday.

Gales Ferry, Conn., June 8.—Rowing under almost perfect weather conditions, the Yale crew covered the 4 mile course on the Thames river tonight in 29:42-5, and Coach Kennedy was evidently greatly pleased by the work of the oarsmen, whose first long row it was since they arrived here yesterday.

Then men rowed over the regulation course down stream, finishing at the bridge, and were followed by Coach Kennedy and a few substitutes in the launch.

Daly's forced absence from the boat gave Ort Meyer a chance to show his worth and he rowed strongly at number 2. The shell went smoothly over the river, the oarsmen showing good form. They were in excellent condition at the end of the 4 miles.

M'LEAN SLATED TO MEET BOBBY

McLean Believes That He Can Beat the Southerner.

"This is going to be a bicycle race, not a sleigh ride," said McLean in the Boston when Jack Prince, McLean and Walthour were making arrangements for the series of races to be held in Atlanta to decide the world championship.

McLean insisted that the number of sweaters to be worn by Lawson, Walthour's pacemaker, be limited to one, in order that Bobby would have to do some of the work himself.

McLean is the champion of Europe for the season of 1902, as he has just returned from the old country, after a most successful season of racing, having lost but two races during the time he was in Paris and Germany.

Walthour was the champion of Europe last season and claims the championship of America for this year. McLean and Walthour met in Boston recently and through an accident to Walthour's motor he was beaten. Knowing that he was beaten Bobby rode unopposed for some five miles or more, just to show the Bostonians what he could do.

Then McLean swelled with pride. He stated rather contemptuously that he would not ride the southerner again until he proved his worth, which proving he stated consisted of meeting Moran and Mettling in Boston and beating both.

Bobby was sore at the condition imposed, as he considers himself champion and not McLean, but he was that as it may, he beat the two riders mentioned in recent race in the bean city.

One more race is scheduled for Boston soon, one between Walthour and McLean to be ridden at Revere Beach track next Saturday. Jack Prince opines that this race will be a hollow victory for Bobby if the motors do their work.

Jack has scheduled two races between McLean and Walthour in Atlanta, June 20 and 21. The first will probably be three five-mile heats, and the second a twenty-mile affair. A third race may be arranged, a thirty or fifty-mile straightaway.

Truck Builder Prince has got the building bent in his bonnet once more and has negotiated two more tracks to be built soon, one at Rocky Point, a suburb of Providence where Sunday ball is all the rage, and the other in New Bedford.

Jockey Will Be Allowed to Ride at Sheepshead.

New York, June 8.—Jockey Eugene Hildebrand, who establishing his record as a new record for winning mounts, will be allowed, it is understood, to resume when the meeting at Sheepshead Park opens one week from today. Hildebrand was suspended recently for the remainder of the Gravesend meeting by the stewards presiding because of his handling of H. P. Whitney's Duenna in a race won by a heavily backed filly named Last Cherry. Thorough investigation followed reference of the case to the jockey club and it is now said he had been practically exonerated of any wrong doing. He claimed at the time that his stirrups broke, preventing him from riding out the Whitney filly.

center, and Hanley had a chance in left field.

Gilks is rather sore that while he has cut down to the limit of the league, fourteen men, Atlanta, Memphis and other teams have seen fit to stay over the limit.

The truth of the matter is that Atlanta has the right to fifteen men at least, as Jordan, second baseman, is also manager of the club.

If needed, Atlanta could cut down to three outfielders, four infielders, two catchers, one substitute and five pitchers, and five would be about enough for this team.

Moren was in the box yesterday against Bartley, of Shreveport. Moren was in trouble a large part of the time, as there were men on bases and the kid was apparently not in the best of shape. But when the necessity for pitching came, he was there with the goods and retained the side, leaving men on bases, thus averaging himself for his defeat in Shreveport.

Bartley was in good shape and pitched a nice game, but was hampered by several errors made by his team. One of them, that of Evans in dropping a pop fly, Shea came to left, a fly out to Tom Fisher in right field, scoring two runs.

Shreveport tied this score by making two runs in the third inning. They came about as a result of a pass to Graffius, a safe hit by Evans to left, a fly out to center and a timely double smash by old man Welkart, sending one run in. Then Moren passed Hanley and Gilks, forcing in one run.

The score was untied in the sixth inning, Jordan and Bob Stafford doing the work. Jordan led off with a snapper to left field for one base, and Helme following with a teaser to third, on which he failed to make first, allowing Jordan passage to second base. Bob Stafford was called upon for a hit and responded with a slashing double to left field, which went over the head of Hanley, who was playing in deep left for just such an emergency. Jordan scored.

The game was a fast and snappy one, the best of its sort since the home team came to Atlanta, as the hits when made counted and slow work on the bases was less noticeable.

Shreveport is badly crippled and their line-up yesterday was hardly calculated to win out in a championship battle.

Pirates Are Crippled.

Owing to the broken finger of Hess and Smith's poor condition a change in the line-up was absolutely necessary. So Welkart was left at first base, Evans, regular second baseman, was shifted from second to short; Fritz, catcher, was put at second base; Kennedy, an outfielder, went to third base; Tom Fisher, a pitcher, took an outfield berth in right; Gilks manager of the team, went to

M'LEAN SLATED TO MEET BOBBY

McLean Believes That He
Can Beat the South-
erner.

"This is going to be a bicycle race, not a sleigh ride," said McLean in Boston when Jack Prince, McLean and Walthour were making arrangements for the series of races to be held in Atlanta to decide the world championship.

McLean insisted that the number of sweaters to be worn by Lawson, Walthour's pacer, be limited to one, in order that Bobby would have to do some of the work himself.

McLean is the champion of Europe for the season of 1935, as he has just returned from the old country, after a most successful season of racing, having lost but two races during the time he was in Paris and Germany.

Walthour was the champion of Europe last season and claims the championship of America for this year, McLean and Walthour met in Boston recently and through an accident to Walthour's motor he was beaten. Knowing that he was beaten Bobby rode unopposed for some five miles more, just to show the Bostonians what he could do.

Then McLean swelled with pride. He stated rather contemptuously that he would not ride the southerner again until he proved his worth, which proving he stated consisted of meeting Moran and Mettling in Boston and beating both.

Bobby was sore at the condition imposed, as he considers himself champion and not McLean, but that as it may, he beat the two riders mentioned in a recent race in the bean city.

One more race is scheduled for Boston soon, one between Walthour and McLean to be ridden at Revere Beach track on Saturday. Jack Prince opines that this race will be a hollow victory for Bobby if the motors do their work.

Jack has scheduled two races between McLean and Walthour in Atlanta, the 20 and 21. The first will probably be three five-mile heats and the second a twenty-mile affair. A third race may be arranged, a thirty or fifty-mile straightaway.

Track Builder Prince has got the building bee in his bonnet once more and has negotiated two more races to be ridden at Rocky Point, a suburb of Providence where Sunday ball is all the rage, and the other in New Bedford.

STOCKS OPENED HIGHER ALL ROUND

Due to a More Cheerful Feeling
in London.

Late Prices Declined from Inattention
and the Average Level Got
Below Yesterday's Final Fig-
ures, the Closing Being
Steady But Lifeless.

New York, June 8.—There was an
abrupt attempt to stir up activity in
the stock market during the first hour
of today's session which resulted in lift-
ing a few stocks to a considerably higher
level than yesterday's closing. The
movement flattened out completely and
the subsequent settling of prices to a
lower level was due as much to inaction
in the market as to any active pres-
sure to sell. The opening advance had
its initiative in the higher level for Lon-
don prices based on the belief in a hope-
ful outlook for peace.

The uplift of prices was purely sym-
pathetic with London, and the actual
transactions for foreign accounts here
were insignificant in amount. The small
selling attracted by the higher range of
prices, however, invited some additional
pressure to move the market upwards.
The efforts centered on a handful of
stocks amongst the coal and southern
railroads, and including Amalgamated
Copper. The operations in the south-
ern group were attributed to a newly
formed pool or a revival of an old pool.
Very favorable showings of gross earnings
being made by railroads in that
region were made the basis of the move-
ment. The large production of anthracite
in the United States was almost
completely overlooked by the absence of
any indication of revived activity in the
iron markets. This proved a burden on
sentiment towards the whole market.
The rise in call money rates was attrib-
uted to the redistribution of funds on
deposit which are the proceeds of Japan-
ese loan subscriptions amongst vari-
ous financial institutions, and the in-
formation was conveyed that these funds
were to be left on deposit there for an
indefinite period. Stock commission
houses also have funds to lend owing to
the extreme dullness of the stock mar-
ket. The handling of the call money rate
was regarded as purely temporary.
But a somewhat firmer tone was report-
ed in time funds, and the likelihood of
higher money rates in the fall is not
without influence in causing the almost
total stagnation in the stock market.
Only remnants of the day's gains were
preserved, and the average level of
prices was insignificantly changed from
last night.

The Japanese bonds were strong on
peace rumors. The bond market was
flat. Total sales, par value, 7,534,000.
United States registered an advance
of 1-4 on call.
Money on call steady at 2-1-20 per
cent. Closing bid at 2-3-4 offered at 3
per cent; 90 days 3-1-4; six months 3-1-20
3-3-4 per cent; prime mercantile paper
3-3-4 per cent.
Sterling exchange steady with actual
business in bankers' bills at \$4.87
48-15 for demand and at \$4.85-10
48-15 for 60 days bills. Gold bills
at \$4.86-48. Commercial bills \$4.84-3-4
48-47-8.

Government 5-5-80.
Mexican dollar 45 1-2.
Silver bonds firm.
Railroad bonds steady.

L. J. Anderson & Co.
COTTON.—Liverpool was slightly better
on the opening than this morning,
being 3 to 5 up. This, however, did not
influence New York prices, the opening
there being practically unchanged from
yesterday's closing. The market was
buying set in and prices advanced steadily
by the session. Trade was more
optimistic today on good support from
the English market and the talk con-
cerning the charges made by Secretary
Cheatham regarding errors in the govern-
ment report last week. The spot situ-
ation continues firm and offerings in
southern markets light. This, however,
is having little influence on prices, as
trade depends more on weather con-
ditions, and the larger interests remain
bearish at this time.

GRAIN.—There were further declines in
prices in the wheat market this morning,
and a fair amount of activity. Weather
conditions are reported as favorable in
the southwest and improved in re-
ported in both the spring and winter
crops. The Austro-Hungarian crop re-
port is unfavorable, on the strength of
which cables were firm. Corn has been
strong and gained some ground by re-
ason of the strength of the cash position.
Weather conditions are reported as more
favorable, but receipts in the west have
decreased sharply. Oats were dull and
firm on light receipts and the strength of
the cash position. There is considerable
talk of a bull movement in oats in
Chicago.

STOCKS.—A better feeling prevailed in
the stock market today on the reports
of more favorable outlook for peace in
the Far East. Any assurance that the
peace proposition will be seriously enter-
tained is a favorable market factor, but
it is recognized that peace depends al-
most entirely upon the action of Japan.
The balance of the day was quiet and
within a short time, this outlook caused
the market to open strong today and the
general list made slight gains. There is
no other news of an important influence,
the disgust over the Equitable affair
having about simmered down and lost
most of its interest.

Bogers-Fowler Co.

COTTON.—The cotton future market was
somewhat firmer in tone today, having
moderate buying for the account of the
shorts of recent creation. The trade was
not large and the professional interest
did the bulk of the business. The closing
prices averaged 10 to 12 points advance
over the opening prices today. The spot
situation continued rather firm, and there
were bullish arguments with reference
to the probable extent of consumption
during the balance of the year. The
foreign demand leaned a little to the
bull side, although the foreign speculative in-
terests were disposed to follow the lead-
ership of the local list. The southern in-
terests did a fair business, although they
were not necessarily aggressive. Every-
thing pointed to a continued fairly active
and somewhat firmer market than we
have had for the past few days.

WHEAT.—The crop and weather situ-
ation appears to be the main influence in
the wheat market at the moment. Condi-
tions in this particular are rather bearish
since it is practically admitted among all
authorities that there will be an increase
in the spring wheat area. The trade is
disposed to look for a high condition in
the forthcoming government report, al-
though the winter wheat condition may
show a slight drop compared with the
May figures. The cash markets generally

INSURANCE MONEY IN COURT.

Three Companies Pay \$11,378 on
Judge Allen's Life.

Americus, Ga., June 8.—(Special).—
Three insurance companies, the Pruden-
tial, Travelers and Fidelity Mutual, have
collectively paid into the court here the
sum of \$11,378, representing the amount
of insurance carried on the life of the
late Judge Thomas Allen, of Americus.
Judge Allen had transferred the three
insurance policies to other parties, and
who had them in force. Since his death
certain heirs have resisted payment of
the policies to the transferees and the
issue is to be determined by the court
here. The companies desiring to make
payment have paid the full amount of the
policies into court, the court to determine
the question as to whom the money
rightfully belongs.
